CODE OF INSTRUCTIONS

TOR THE

CONDUCT OF OFFICE AND OTHER BUSINESS AND FOR THE REGULATION OF ACCOUNTS

IN THE

FOREST DEPARTMENT

WITH

PRESCRIBED FORMS.

Third Edition (Reprint) embodying corrections, up to 1st June 1916.

MADRAS:
PRINTED BY THE SUPERINTENDENT, GOVERNMENT PRESS.

1916.

PREFACE TO THE THIRD EDITION.

THE reprint of the Third Edition of the Madras Forest Code now published supersedes the edition of 1909, which should no longer be quoted. The numbering of the sections and of the appendices has been maintained and in addition to slight verbal alterations in a few sections all amondments and corrections issued up to 1st June 1916 have been incorporated.

The references quoted in this Code refer to-

The Fifth Edition of the Civil Service Regulations.

The Seventh Edition of the Civil Account Code.

The 1910 Edition of the Standing Orders of the Board of Revenue.

The 1912 Edition of the Madras Forest Manual.

The 1913 Edition of the Stationery Manual.

In case of any supposed conflict between this Code and the Civil Service Regulations or the Civil Account Code, the latter must be considered as authoritative.

2. Addenda and Corrigenda will issue from time to time from the Board's office.

THE

FOREST DEPARTMENT CODE, MADRAS.

CHAPTER I.

ORGANIZATION OF THE FOREST DEPARTMENT.

Part I.—General.

- 1. The rules contained in this Code are applicable to the Extente appli-Forest Department in the territories subject to the Government of Fort St. George, hereinafter referred to as 'the Government.'
- 2. For the administrative purposes of the Forest Depart-Presidency is divided into four Circles, Northern, Circles, Coroles. Central, Southern and Western which respectively contain the Forest districts shown in the subjoined table:—

Northern Circle,	Cen [‡] ial Cirole.	Southern Circle,	Western Circle.
Head-quarters,	Head-quarters,	Hend-quarters,	Head-quarters,
Waltair,	Madras,	Triclinopoly.	Coimbatore.
1 Ganjām. 2. Vizagapatam. 3. Lower Gō iāvari. 4. Upper Gōdlvari. 5. Kistun. 6. East Kurnool. 7. West Kurnool. 8. South Kurnool.	1. Bellary. 2. Anantapur. 3. Guntur. 4. Nellore. 5. East Cuddapah 6 West Ouddapah. 7. Chittoor. 8. Ohiugleput.	1. Vellore, North. 2. Vellore, South. 3. Vellore, West. 4. South Arcot cum Tanjore. 5. North Salem. 6. South Salom. 7. Trichinopoly. 8. Madurn. 9. Tinnovelly cum Rümnäd.	1. Mangalore, North. 2. Mangalore, South. 3. North Malabar. 4. South Malabar. 5. The Nilginis. 6. Kolegal. 7. North Coimbatore. 8. Central Coimbatore. 9. South Coimbatore.

3. The general administration of the forests in the whole General control of forests. Presidency is under the control of the Board of Revenue, which is, therefore, the Head of the Forest Department, Madras. 'Collectors and Conservators are subordinate to and receive their orders and instructions from the Board in its Forest branch. The orders of the Government on forest business will be issued from the Revenue Secretariat, to which all correspondence on such matters should be addressed.

Chap. I.

Organization of the Forest Department.

GENERAL-continued.

Forest Administra tion 4. Subject to the control of the Board of Revenue and the Government, the administration of the Forest Department is in the hands of the District Forest Officer, the Collector and the Conservator. The relative responsibilities and powers of these authorities are dealt with in sections 221 and 222.

Charkos Vyministrative

- 5. A Conservator's charge, or Circle, is ordinarily divided and sub-divided into—
 - (a) Forest Districts or Controlling charges.
 - (b) Sub-divisions, Ranges, or Executive charges.
 - (c) Beats, or Protective charges.

The unit of management is the Range, which comprises a number of beats. A Forest District usually coincides with a Revenue District, though in some cases the latter includes two or more separate Forest Districts. Each Forest District is divided into a number of Ranges, and a group of Ranges may be styled a Sub-division. These charges will ordinarily be held by the following classes of officers:—

- (1) Forest Districts.—Deputy Conservators, Extra Deputy Conservators, and those Assistant and Extra Assistant Conservators who have passed the requisite examinations and obtained the certificate of competence for district charge—vide section 39.
- (ii) Sub-divisions.—Assistant Conservators, Extra Assistant Conservators and First-grade Rangers.
 - (iii) Ranges.—Rangers and Deputy Rangers.
 - (iv) Beats .- Foresters and Forest Guards.

Deviations from the prescribed rule, when allowable. When necessary, for financial or other reasons, the Government may, as a temporary measure, permit deviations from these provisions in regard to district charges, and the Board and Conservators exercise a similar discretion in regard to the management of Sub-divisions and Ranges respectively.

Arrangement of forests into Beats, Ranges and District charges,

The arrangement of forests into Forest Districts will be regulated by Government; that of Forest Districts into Sub-divisions, Ranges and Beats will be regulated by the Conservators, provided that no addition to the number of Ranges shall be made without the sanction of Government and that the Collector shall be consulted regarding the arrangement of Sub-divisions and Ranges.

Classification of establishmonts 6. Permanent establishment includes all officers, of whatever rank, who are required for the ordinary administration of the forests, and who are employed for the whole year and

Chap. I. Part I.

GENERAL—continued.

year after year in pensionable service. Their salaries will be charged under the appropriate sub-heads of B-I.

Temporary establishment comprises officials who are required to strengthen for a time the permanent staff, and their pay and allowances will be charged to appropriate sub-heads under A or B.

The pay of labourers will be shown in the Labour Bills and charged to appropriate sub-heads.

7. The permanent Executive and Protective Staff will be Permanent fixed by Government for each Circle under the classes of Circle under the Circle under t Ranger, Deputy Ranger, Forester and Forest Guard.

Where qualified men are not forthcoming to fill appointments in the higher grades of any class of the subordinate establishment, extra appointments may be made by Conservators in the lower grades to compensate for such deficiencies, provided that the total number of appointments sanctioned for each class is not exceeded.

Officers on the permanent staff may not be transferred to the temporary establishment.

8. Temporary establishments employed on the execution remporary of works on sanctioned estimate do not require special ments. sanction provided that their cost has been included in the sanctioned estimates, that the budget allotment for such establishment is not exceeded, and that the rate of pay does not exceed the maximum prescribed by Government. All other temporary establishments require the sanction of the Board of Revenue, which must be given for a fixed period, in no case to exceed twelve months. If the pay of any appointment amounts to Rs. 100 per mensem or more, the previous sanction of Government is required. The sanction for temporary establishments lapses with the provision made in the Budget grant for the works on which the temporary establishments are employed. Temporary establishments required to assist the permanent staff in the execution of its ordinary duties will be sanctioned and charged under "B", only such establishments being sanctioned and charged under head "A" (under the proper sub-heads) as are employed on some special work or works which can be properly classified under that head. In the latter case, the men employed should never be designated Rangers, Deputy Rangers, Foresters or Forest Guards, as these titles should be used only for

Chap. I.

Organization of the Forest Department.

GENERAL-continued.

officers employed under head "B." Temporary appointments of Rangers may be sanctioned by Government when they are required for bond fide temporary work, for which no provision has been made in the existing cadre of Rangers.

banction of the Board of Revolute required for temporary establishments

The sanction of the Board of Revenue to the entertainment of any particular temporary establishment in any District may, if considered expedient, be given to a monthly maximum amount, and it may be left to the Conservator to make such alterations as he may, from time to time, find necessary in the scale of such establishment. But the sanction will in each case specify distinctly the dates from and to which the establishments are to be entertained, and the budget sub-head to which their cost should be charged; and in every case when the sanction accorded is for twelve months, the period will be counted from the 1st March to the end of February, so that the cost may be met from the Budget grant of the year. Proposals for temporary establishments should be accompanied by the above particulars. Conservators should submit their applications by the 1st February in each year.

Conservators have the power to transfer temporary establishments from one district to another as occasion requires and to make the requisite transfers of allotment under the appropriate budget head or sub-head.

Leave of absence of persons temporarily employed,

9. Persons employed on temporary establishments may obtain leave of absence as provided for in articles 201, 242, 336 (1), and 339 (2) of the Civil Service Regulations. Their service does not count for pension unless the post which they hold is subsequently converted into a permanent appointment.

Labour,

- 10. Under labour is included all bona fide manual labour, whether paid by the day or the month, employed—
- (1) On the reaping, collection, fashioning, removal, transport and sale of forest produce;

(2) On the feed and keep of cattle;

- (3) On the construction and maintenance of tools and plant;
- (4i On the construction and maintenance of communications and buildings;
- (5) On the demarcation, improvement, extension and protection of forests.

Labour will be charged under the appropriate heads and sub-heads under 'A. Conservancy and works,'

Chap. 1, Part I.

GENERAL-continued.

Conservators and District Forest officers are personally responsible that labour employed under their orders is not retained for a longer period than is actually necessary.

Explanations.—Supervisors, cooly maistries or gangers are included under the head of labour, but any further supervision is distinctly excluded.

The following items must not be included under labour:—

(a) Crews of steamers and boats permanently maintained for the use of the department.

(b) Gardeners, tope watchers, and other workmen permanently

employed.

(c) Watchmen and sweepers employed in permanent depôis or buildings.

(d) Letter-carriers employed under special circumstances for

more than a month at a time.

- (c) Temporary office establishments, i.e., persons entertained for any clerical work whatever; but Conservators may sanction the entertainment of Surveyors or Draftsmen for any special piece of work, and in such case the charge may be debited to that work as 'labour.'
- 11. The Government Servants' Conduct Rules applicable to the Forest Department generally.

ATC Personal conduct of officers.

12. The allowances of Forest officers of all classes and allowances grades and of office employees acting in a higher class or grade a higher class than their own, are governed by the provisions of the Civil Service Regulations.

13. Officers of the Forest Department can claim travelling Travelling allowances. allowances only under the provisions of the Civil Service Kegulations.

Rangers and Deputy Rangers holding charge of more than Adonances to one Range may be granted double the convoyance or Deputy Range when permanent travelling allowance of their class subject to the holding charge of more than approval of Government in each case—vide article 1000, Civil one Range. Service Regulations; and appendix 22, entry No. 41; and 26, entry No. 40. Conservators of Forests can sanction tho grant of a fixed conveyance allowance of Rs. 15 per mensem to any Forest Ranger who keeps a pony though not actually in charge of a range, if the Conservator is satisfied that his duties are such as to render it nocessary in the public interests and for the performance of his official duties that he should keep a pony. Conservators of Forests can exempt any Forest

GENERAL-continued.

Ranger from keeping a pony when a cart or other means of conveyance would be more useful to him for the efficient performance of his duties. If a bicycle only be kept, the allowance should be reduced to Rs. 5.

Rents to be charged for Government buildings occupit dis lesidences. 14. The rules for regulating the rents to be charged for Government buildings occupied as residences by Government officials and others are prescribed in paragraphs 919 to 927 of Chapter X of Volume I of the 9th edition of the Public Works Department Code.

Rents will be remitted in the case of Forest subordinates drawing Rs. 25 and less, such as Foresters, Forest Guards, Clerks and Peons, who are compelled to reside in Government buildings.

As regards Rangers and other subordinates drawing more than Rs. 25, but not more than Rs. 100, the rent of 5 per cent on the salary and local allowance, or the rent calculated according to the ordinary rules, whichever is less, will be charged.

In regard to all other Forest officers, the rent calculated

according to the ordinary rules will be charged.

A register of rents in Form No. 2 should be maintained in every District Forest Office, and the collection of rent due on Forest buildings in their districts should be watched by District Forest Officers. The rent, if any, due by the District Forest Officer himself, should be deducted from his salary bill, as is done in the case of income-tax, subscriptions to funds, etc., similar arrangements being made in the case of buildings occupied by Forest subordinates.

15. Cancolled.

Rules regulating the occupation of Porest Rost-houses.

16. The general rules regulating the occupation of resthouses in charge of the Forest Department are contained in Appendix II to this Code.

Reserding ront of lands or buildings in public accounts 17. Attention is invited to article 98 (n) in Chapter 6 of the Civil Account Code, which is as follows:—"The rent of any land or building occupied for public purposes shall be paid by the public office or department occupying it, and recorded in the public accounts as a charge of that office or department. The first charge in every year made in any contingent bill should be supported by a certificate from the Executive Engineer concerned, that a suitable public building was not

available for the purpose required. Post offices engaged in receiving and delivering letters are exempt from this rule.

- "This rule does not authorise payments or adjustments between Departments."
- 18. The rules framed under clause (ii) of article 999 of Hire for Govthe Civil Service Regulations, prescribing the fixed rates of trainer. hire to be deducted from the travelling allowance of officers using Government boats, are contained in Appendix III to this Codo.

18-A. Government carts and bullocks when not required gire for for departmental work may be hired either to officials or to non-officials at the discretion of the District Forest Officer. A rate of annas four for every 21 miles or fraction thereof should be charged for the use of a cart and pair of bullocks and half that rate when the cart or bullocks alone are used. These rates apply both to officials and non-officials.

Part II.—Organization of the Forest Staff.

19. The Forest Staff is composed of-

21. The Provincial or Madras Forest Service consists of Extra Assistant Conservators on Rs. 250 rising by annual increments of Rs. 20 to Rs. 550 and Extra Deputy Conservators on Rs. 575 rising by annual increments of Rs. 25 to Rs. 650. After an Extra Assistant Conservator has attained to Rs. 550 a month, promotion to the class of Extra Deputy Conservator will depend upon the occurrence of permanent (or provisional substantive under article S9 of the Civil Service Regulations) vacancies in that class, always provided that no Extra Assistant Conservator will be eligible for promotion as Extra Deputy Conservator unless he is considered by the Local Government to be fit for a major charge. An Extra Assistant Conservator, who has served for not less than three years on Rs. 550 a month, and who is considered by the Local Government to be fit to hold a major charge, but for whom no vacancy exists in the Upper Controlling staff, may, however, be given a personal allowance of Rs. 50 a month; and in the case of officers whom the Local Government considers fit for further increase of pay, this allowance may be augmented to Rs. 100 a month on the expiry of a further period of four years and to Rs. 150 a month on the expiry of a second period of four

Chap. i. Part II.

ORGANIZATION OF THE FOREST STAFF-continued.

The Local Government may, by special order in each case, promote an Extra Deputy Conservator after one year's service on Rs. 650 a month to Rs. 700 a month for a period of three years, and again to Rs. 800 a month for a further period of three years, and may then promote him to Rs. 850 a month until the close of his service; but promotion to Rs. 700, Rs. 800 and Rs. 850 a month should only be made when the Local Government is satisfied at each step that the individual is thoroughly deserving of such promotion.

an officer being employed on two or more plans at the same time.

When two or more officers have been in charge of the same plan or plans, the remuneration granted should be divided in proportion to the time that each officer was in charge, subject to the consideration of the quality of the work and the labour entailed in each case.

Crassified list of Forest Officers

25. The Accountant-General will prepare the half-yearly classified list of gazetted officers of the Imperial and Provincial Forest Services prescribed by the Government of India in Revenue and Agricultural Department letters No. 605 F. 207-2, dated 1st June 1909, No. 1220 F. 253-12, dated 17th November 1909, and No. 18 F. 94-9, dated 11th June 1910, in accordance with sections (i), (ii) and (iii) of form No. 1 and forward five copies of the lists direct to the Government of India, Department of Kevenue and Agriculture, so as to reach them not later than the 1st February and 1st August and at the same time send 630 copies direct to the Superintendent, Government Printing, India, at Calcutta. The Accountant-General will also prepare a monthly list of gazetted officers of the Imperial and Provincial Forest Services and Probationary Extra Assistant Conservators in accordance with sections (i), (ii), (iii), (iv) and (v) of Form No. 1 and send ten copies of these lists to the Local Government and ten copies to the Board of Revenue for use in its office and for distribution to Conservators. He will also furnish additional copies of the lists for the months of January, April, July and October required for distribution to Collectors and District Forest officers. The Board of Revenue will prepare a quarterly list of Rangers and Deputy Rangers in accordance with section (vi) of Form No. 1, including also a statement showing for each district the distribution of all officers down to the grade of Deputy Ranger, taking care to see that all abbreviations and symbols denoting the professional training of officers and other qualifications, etc., as well as all other necessary particulars are correctly entered therein and will supply copies thereof to Government, Accountant-General, Conservators, Collectors and District Forest officers. Subordinates of and above the class of Deputy Rangers will be supplied with copies of this list annually. Rangers will be shown on one list for the Presidency, but Deputy Rangers

In the case of an officer who is permanently substantive, the date of his permanent confirmation in the grade should be entered in Boman type, immediately below which should be shown in italics the date of his provisional substantive appointment (if any) to the same grade, provided such provisional appointment lasted for more than three consecutive months and was not interrupted by reserving for more than three conscrutive months

Recruitment and First Appointment.

26. The Imperial Forest Service will be recruited solely Recruitment by officers appointed under covenant with the Secretary of for Imperial Pore-it Service State, who have received a professional training, either under the regulations which may, from time to time, be laid down by the Secretary of State, or in such other manner as may be approved by him (vide appendix IV).

27. Appointments to the Imperial Forest Sorvice will, Appointments as a rule, be made to the class of Assistant Conservator, Forest berries. Present incumbents, who were appointed in India prior to the 21st October 1891, on which date the reorganization of the Imperial and Provincial Forest Service took effect, belong to the Imperial Forest Service, their seniority being reckoned from the date on which they were made permanent in the class of Assistant Conservator.

- 28. (1) The Madras Provincial Forest Service will be Recruitment of candidates for the form men who have successfully passed through Provincial recrnited-
- the Provincial Service course at the Research Institute, Dehra Dun.
 - (b) by promotion of deserving Rangers.
- (2) On or before the 1st June of every year, the Board of Revenue will submit to Government a report as to the number of candidates for the Provincial Forest Service to be selected during the year. On receipt of intimation from the President of the Forest Research Institute, Dehra Dun, of the number of studentships allotted to this Presidency, the Board will publish the rules for the recruitment of the Provincial Forest Service in the Fort St. - George Gazette and the District Gazettes in the form of a notification inviting applications for appointment, to that

service. A committee consisting of the Forest Commissioner, another Member of the Board of Revenue and the Conservator of Forests, Central Circle, will meet early in September for the selection of suitable candidates for the special course of training at Dehra Dun. The selection will be confined mainly to young men who are of good physique and social standing and qualified by previous education; preference will be given to those candidates who have a substantial knowledge of one or more branches of natural science, but a knowledge of English and Mathematics will also be required in order to ensure that those selected shall be thoroughly capable of following and profiting by the course of instruction. The selection committee will submit to Government by the 10th September the names of the candidates whom they recommend arranged in order of merit. For every vacancy not less than two names should be submitted. The Government will then select a number of candidates slightly in excess of the number of vacancies so as to form a reserve against failures to pass the entrance examination.

(3) Candidates should be prepared to satisfy the Committee in such manner as may be prescribed by the Committee that they possess the requisite physical and educational qualifications to undergo successfully the tests mentioned in rule 5 infra.

(4) Except for special reasons and with the special sanction of the Local Government, no student will be deputed for the special course who is not between the ages of 18 and 25 on the 1st July of the year in which the special course begins. Candidates must therefore be between the ages of 17 and 24 on the 1st July of the year in which they are selected.

(5) The candidates selected by Government will undergo the following examination which will be conducted by the Board of Revenue at Madras early in October:—

(i) Physical test.—To be prescribed by the Board. It will probably take the form of a walk from 12 to 18 miles within a given time. This will be followed by a medical examination.

(ii) Educational test—English.—The candidates will be required to write a full precis of two passages—one read out by a European, and the other by an Indian officer; this will be followed by a colloquial examination.

Chap l.

Mathematics.—The examination will consist of two papers—one in arithmetic and algebra and the other in geometry and trigonometry for each of which three hours will be allowed. The standard in Mathematics is a practical knowledge of arithmetic, algebra up to and including quadratic equations and simple problems, mensuration, geometry (including the first three books of Euclid) and elementary trigonometry including the solution of triangles and the use of logarithms. No candidate who fails to obtain half the full marks in each paper will be considered to have passed. The question papers will be received from the President, Forest Research Institute, Dehra Dun, and the answer papers will be sent to him by the Board of Revenue for valuation.

The Board will report to Government the result of the physical test and the examination in English. The President, Forest Research Institute, will communicate to Government before the 15th December the results of the examination in Mathematics. On receipt of both these results the Government will announce the names of the candidates finally selected.

It will be open to the President of the Forest Research Institute, to remove any student from the College, if, at any time during the course at Dehra Dun, he is found to be physically unfit, or if after having been at the college for two months he is found by the President not to possess sufficient knowledge of English to enable him to follow the course intelligently.

- (6) Selected candidates will before deputation be required to undergo practical training for a period of six months under a District Forest Officer and will be paid during the period a stipend of Rs. 50 with fixed travelling allowance of Rs. 25 per mensom. They will continue to draw stipend at Rs. 50 from the date on which their training under the District Forest Officer ceases, up to the date on which they are formally admitted as students in the Debra Dun College. Candidates are liable to rejection if the results of their practical training are such as to indicate that they are unlikely to prove good forest officers.
- (7) Before proceeding to Dehra candidates will be required to execute a formal agreement and a security bond with two sureties for Rs. 4,000 that they will serve the

department for at least five years after their roturn from Dehra. The sureties should be persons residing or owning property in British India.

- (8) Selected candidates, while under training at Dehra Dun, will be granted a stipend of Rs. 80 per mensom in addition to actual expenses for journey by rail, or steamer. They will, on returning to Madras duly qualified, be given a bonus of Rs. 480 to help them to purchase the equipment necessary for their work. Candidates will be paid the usual travelling allowances admissible under the Civil Service Regulations for joining the college at Dehra and for their return on successful completion of the two years' course.
- (9) Candidates who have obtained the necessary certificates from the Forest Institute, Dehra Dun, will be posted to the Forest Service as Probationary Extra Assistant Conservators, but they may not be substantively appointed to the Provincial Service until they have served on probation for two years and until actual vacancies in that service arise; their pay during the period of probation shall not exceed Rs. 150 per mensem and if their probationary period is extended their pay during the first year of extension shall not exceed Rs. 150 per mensem and Rs. 200 per mensem during the remaining period of extension. During this probationary period all probationers except those who speak one of the vernaculars of the Presidency as their mother tongue must pass the test prescribed in section 63 in one of the vernaculars of the Presidency.
- (10) Any candidate who is not appointed permanently to Government service before attaining the age of 23 may be allowed to count as service towards pension any period of training or probation after attaining that age.
- (11) Rangers of long service and approved merit are cligible for promotion to the Provincial Service without any further training. When so promoted, they will be appointed first acting on probation and confirmed if found suitable.
- (12) An officer appointed direct to the Provincial Forest Service or rangers promoted to that service will, on permanent appointment, be designated Extra Assistant Conservatorand receive pay at Rs. 250 per mensem rising by an annual increment of Rs. 20 to Rs. 550. Their subsequent promotion

to the grade of Extra Deputy Conservator will be regulated by the provisions of section 21.

29. The rules prescribed by the Local Government and The Madras by the Government of India to regulate the constitution of, Combance, and its Forest admission to, and studies and discipline at the Madras College, Deliver Colleg Forest College, Coimbatore, and the Dehra College, spectively, are contained in appendices V and VII to this Code. The rules issued by the Madras Government on the subject of the entry into the Forest Department of native non-commissioned officers of His Majesty's Army are given in appendix VI.

30. (1) Appointment to the class of Ranger will be made Appointments to the class of either by direct selection of candidates, not in the depart- nanger. ment, or by the promotion of deserving officers in the department.

- (2) Direct appointments to the grade of Rangers will ordinarily be given only to candidates who have obtained the Higher Standard certificate at the Madras Forest College, . Coimbatore, or to non-commissioned officers of the Indian Army who are recommended by their Commanding Officers under the conditions laid down in appendix VI. Nothing in "this rule shall, however, debar the Board from appointing direct to the grade of Ranger any candidate who may be found fit.
 - (8) Candidates obtaining Honours and Higher Standard certificates at the Forest College, Coimbatore, will be appointed to the IV and VI grade of Rangers respectively as vacancies occur. But such candidate will be regarded as on probation for not less than one year, unless he has already proved himself fit for range charge.
 - (4) Appointments to the class of Rangers which are filled by promotion of officers in the department will be given to Deputy Rangers. In selecting men for such promotion the Board shall give due weight to the educational qualifications of the candidates, to the class of certificate (if any) obtained at the Madras Forest College or Dehra Dun, and to the actual efficiency of the officer as tested in actual service.
 - (5) All officers except those who speak one of the vernaculars of the Presidency as their mother tongue must, within three years of the date of appointment to the Ranger's

Pay and promotion of officers of the Provincial 37. The pay of an officer of the Provincial Forest Service also depends on the length of his service. The express sanction of Government is not necessary to enable Extra Assistant and Extra Deputy Conservators to draw their incremental rises of pay. In the case of Extra Deputy Conservators, however, promotion to the pay of Rs. 700, Rs. 800 and Rs. 850 a month should only be made with the previous sanction of Government as laid down in section 21. Increments are liable to stoppage by Government for unsatisfactory work or conduct.

Proposals to be made by Board for appointments made by Government. 38. Proposals for the appointment, promotion and posting of the officers mentioned above will be made by the Board of Revenue in such manner as may be ordered by Government from time to time.

Promotion in the cines of Assistant Conservators and Extra Assistant Conservators.

39. Before he can draw more than Rs. 420 per mensem an Assistant Conservator will be required to pass by the Lower Standard in the vernacular and in the remaining three subjects mentioned in section 61; and he cannot draw more than Rs. 500 per mensem till he has passed by the Higher Standard in the vernacular (section 63). Extra Assistant Conservators will already have passed the vernacular test required of them under section 28 (9) or 30 (5) before their confirmation. An officer of either class must further obtain, before promotion, a certificate from the Conservator to the effect that he is competent to hold charge of a Forest District and that he has made himself sufficiently acquainted with the principal trees and shrubs of his district. Should the Conservator consider it necessary, he may satisfy himself that the officer possesses the latter qualifications, by means of an examination, written or oral.

to the second and first grades will, as a rule, be given only to Guards who have obtained a certificate of attendance from one of the vernacular forest training schools or, if there is no school held in the Guard's particular vernacular, a certificate from the District Forest Officer that he has satisfied himself that the Guard is thoroughly conversant with the subjects taught at the schools.

42. (1) The promotion of Deputy Rangers and Rangers Promotion of Deputy from grade to grade will be in the main by selection and will Rangers and Rangers. not be given, and cannot be claimed, on grounds of seniority alone.

Promotion of Rangers to grades above the fourth will be based more strictly on selection, but an efficient officer should not be superseded merely because his Junior is considered more brilliant.

(2) The appointment of Deputy Rangers and Rangers rests with the Conservators, but the promotion of Rangers from grade to grade is decided by the Board of Revenue, in order to ensure an even flow of promotion throughout the Presidency. The Forest Commissioner and the Conservators will meet half-yearly and draw up lists of men considered fit for promotion from one grade to another. When a vacancy occurs in any circle the Conservator concerned should immediately report to the Board the date on which it occurred. On receipt of this intimation of a vacancy, the Board will itself make the consequent promotions from the approved list and cause the appointments to be gazetted. Conservators should be careful to keep the Board informed of any blackmark or other bar to promotion against any Ranger whose name is on the approved list and such bar to promotion will be noted in the Board's register. Promotions to the first, second and third grade Rangers will not be given to men who have not obtained the certificate in Forestry (Higher standard) at the Imperial College, Dehra Dun, or at the Madras Forest College, Coimbatore, unless (1) they were in the Rangers class on 1st January 1897 or (2) in cases of really exceptional merit.

(3) When an officer returns from duty, the Conservator of the circle to which he is attached will fill up the form—appendix XXXIX—and send copies of it to the other Conservators for issue of the necessary orders.

Chap. I.

Organization of the Forest Department.

- (4) The whole chain of reversions will be filled up by the Conservator despatching the form; but the Conservators of the other circles will be at liberty to revert any officer other than the lowest acting officer in each grade in their respective circles, should they think fit.
- (5) Each Conservator will pass orders on the reversions so far as they relate to his own circle and will send copy of his orders to the *Fort St. George Gazette* for publication in Part II.

Appointment and pro notion of mombers of the temporary establishment other than office staff.

43. The appointment and promotion of members of the temporary establishment other than office staff on salaries exceeding Rs. 25 per mensem rest with the Conservator.

Posting and transfer of Banutes, Deput: Rangers, Toresters and other subordinates. 44. The posting and transfer of Rangers, Deputy Rangers and other members of the permanent Subordinate Forest Service whose monthly pay exceeds Rs. 25 per mensem will rest with the Conservator. Subject to the special orders of the Conservator as to any particular subordinate, the District Forest Officer may post or transfer all other members of the Subordinate Forest Staff within his district. Forest guards will not, as a rule, be subject to transfer from one district to another, but in special cases the Conservator may arrange such transfers.

Suspension, reduction and removal of controlling staff.

45. The suspension, reduction to a lower grade or class, or removal from the service, of Conservators and of all other officers of the Imperial and Provincial Forest Services rests with the Government.

Punishment of officers on the Executive, Protectise and other Staffs. Table of appointment promotions, transfers and punishments. 46. The punishment of officers of the Subordinate Forest Service and of the members of the office and temporary establishments is regulated as shown in appendix X.

This appendix also shows by what authority the officers of each class are appointed, promoted or transferred.

The award of black-marks is governed by the rules in appendices X and X-A.

The black-mark rules in appendix X-A do not apply to the clerical establishment of the Forest Department, for which a less rigid system such as that prescribed in Board's Standing Order 132-1 is more suitable.

Chap. J. Part II.

ORGANIZATION OF THE FOREST STAFF-continued.

47. (i) Members of the permanent establishment may not Fines and black marks be fined. A subordinate of the temporary statf should seldom be fined more than Rs. 2 or Rs. 3 and never more than a month's pay. No fine exceeding Rs. 10 may be imposed without the sanction of the Board.

(ii) A Conservator may award a black-mark to any subordinate whose appointment or dismissal rests with him. A District Forest Officer of his own motion or under orders from the Conservator may award a black-mark to any member of the subordinate, clerical or menial permanent establishment, and fine any member of the temporary establishment within his district. A Sub-Divisional Officer has the same power over officers of or below the rank of Deputy Ranger and all clerks and menials within his subdivision.

A Range Officer may award a black-mark to Forest

guards in his range.

'(iii) The withholding of pay and allowances temporarily from subordinates until they comply with orders regarding the execution of works, the submission of reports or returns, or the like is prohibited. This prohibition does not extend to cases where misappropriation of Government property is under investigation and pay or allowances are withheld as a precautionary measure, nor does it refer to forfeiture of pay for periods of absence without leave.

(iv) A balf-yearly return of all punishments inflicted on subordinates should be drawn up in each district in Form 3, a separate section being allotted for each class of punishment; this return should be carefully scrutinized by the Conservator, who is responsible for seeing that the punish-

ments inflicted are not excessive or too numerous.

48. When a Forest Officer is reduced to a lower class or Reduction to grade, his name will, as a rule, be placed at the bottom of prade. the list of officers in that class or grade; but should the authority ordering his reduction desire, in any special case, that the officers degraded should be placed in any other position in the lower class or grade, the fact should be clearly stated in the order itself.

49. The interests both of Government and of the public Procedure to service require that no person shall be dismissed from the leading of the public Procedure to be followed in all energy of service of Government without the reason for such dismissal.

being placed on record. The procedure to be adopted in all cases of this nature is stated in the extract from the orders of Government given below, and great care should be taken to see that this procedure is strictly adhered to.

"In all cases of the dismissal of public servants, whether acting or temporary or permanent, the charge against a public servant should be reduced to writing, his defence should be either taken in or reduced to writing, and the decision on such defence should also be in writing. A copy of the whole of such proceedings should also be furnished to the person dismissed. In many cases the officer who passes the order of dismissal may not be able to make enquiry himself, and the proceedings leading to dismissal would be conducted by the superior officer on the spot. In the case of public servants who are dismissed in consequence of facts or inferences elicited at a judicial trial or in the case of persons who abscend with an accusation over their heads, this procedure may be unnecessary or impossible."

The same procedure shall be followed where the reduction or other serious punishment such as the award of a blackmark of a public servant is likely to follow the enquiry.

The detailed instructions on the subject in the Board's Standing Order No. 135 should be followed invariably and closely.

- 50. Criminal prosecutions by the department of officers of the Provincial and Subordinate Forest Services may be instituted only by the orders of those authorities who have the powers of reduction and dismissal, provided that in the case of Rangers the orders of the Board must first be obtained.
- 51. (1) An appeal from any departmental order of a District Forest Officer lies to the Conservator. In cases of appeals against black-marks or fines the orders of the Conservator shall be final; in other cases a second appeal shall lie to the Board of Revenue whose decision shall be final.

From all orders passed by a Ranger or Sub-Divisional Officer an appeal lies to the District Forest Officer.

An appeal from all orders passed by a Conservator lies to the Board of Revenue.

(2) Under the Government petition rules which are printed as appendix XVII to Board's Standing Order No. 172 every officer wishing to appeal or to petition a higher authority on any subject, must do so through the head of the office to which he belongs or belonged. In the case of those districts in which two languages are ontered as principal, the Board of Revenue may decide in each case in which of these languages an officer will be required to pass. The Board may also allow an officer serving in South Canara to appear for examination in Tulu, according to the third-class test prescribed in appendix XII for the other languages of the Presidency.

63. The compulsory vernacular examinations to be passed Kxaminations in vernacular. by officers of the Imperial Service are the Lower and Higher standards as prescribed in appendix XII which also contains the rules in regard to the optional tests and the tests to be passed by officers of the Provincial Service. The period allowed for passing each test and the rewards obtainable for passing in an optional language are laid down in the same -appendix.

(B) Law.

- 64. The following are the subjects required for the Examination Examination in Law:-
 - (1) The Madras Forest Act, 1882, with such notifications or rules, general or special, as have been made thereunder and aro applicable to the district.

(2) The land Acquisition Act, 1894.

(3) The Madras Survey and Boundaries Act, 1897.

Questions will be put upon the Standing Orders quoted in this section, only so far as they concern Forest Officers and their work.

Examination cave. 67. To enable officers holding the substantive appointment of Assistant Conservator or of Extra Assistant Conservator to qualify themselves to pass the examinations prescribed in section 61, examination leave for a single period not exceeding three months may be granted to them by the Board. Such examination leave may, if the test for which it has been granted is successfully passed, either during the leave or within three months after its expiry, count as duty qualifying for privilege leave and pension.

Examination leave will only be granted in exceptional cases and when it is granted, the Board of Revenue will specify where it is to be spent, selecting the locality most likely to

conduce to progress in the study of the language for which the leave is sanctioned. As a general rule instead of granting an Assistant Conservator of forests examination leave, he should be given an opportunity of learning the vernacular of his own district by being relieved of current duties (and more particularly duties not concerned with the Forest Department), such as the signing of fair copies or other routine business which may, from time to time, be assigned to him.

Examination leave may only be taken in India. It may - not be granted previously to, or in continuation of, any other leave, and no kind of leave, except furlough on medical certificate, may be granted in continuation of examination

An officer on examination leave has a lieu on his appointment (substantive or officiating) and is entitled to leave allowances as if he were on privilege leave.

In addition to the leave above specified, a reasonable time will be allowed to officers attending an obligatory examination for their journey to and from the place of such examination and the time so spent as well as the day or days of examination shall be counted as "duty"; provided that such officers give a week's previous notice of the date from which they propose to avail themselves of such leave to the authority or officer to whom they are immediately subordinate.

An officer permitted to present himself at any examination which must be passed before he becomes eligible for a higher appointment in the Forest Department may be allowed by the Board, leave of absence for the number of days which is actually necessary to enable him to attend the examination. During this absence, which is expected to be short, no deduction will be made from the officer's allowances, unless the Board finds such deduction necessary to enable it to make arrangements for carrying on the work. Such leave should not be allowed more than twice for each examination.

Permission to appear at an optional examination carries with it the grant of "joining time" (excluding the time allowed for preparation) to and from the place of examination besides leave for the day or days of examination.

and Accounts and, except in the case of those who have already passed the Revenue Test, Higher or Lower grade, in the Board's Standing Orders noted in section 66, and will be subject to half-yearly examinations till they pass.

The examinations will ordinarily be held in January and July. District Forest Officers should arrange to give at least a month's notice to the Conservator of the intention of any clerk to appear.

No application for permission to appear for the examination should be submitted for the Conservator's sanction unless the District Forest Officer has satisfied himself that the clerk has a reasonable expectation of passing the test.

The examination will be by written papers, to be drawn up by the Conservator of Forests, who will either hold the examination himself or send the papers to the District Forest Officer to be set to the candidates. The answers of the candidates will then be returned to the Conservator to value them and notify the names of the candidates who have passed in the Fort St. George Gazetts. The papers set should not be too difficult but should be generally suitable to the intelligence of the candidates. 60 per cent of the maximum marks must be obtained for a pass in the second class and 80 per cent for a pass in the first class. Only those caudidates who pass in the first-class will be eligible for promotion to the grades of Rs. 100 and upwards.

Special texts for certain appointments in the office 69. The following ministerial and clerical officers must pass the special tests noted against them:—

Head Clerks of District Forest
Offices and other ministerial Translation Test, Lower
officers (excluding Accountants) on Rs. 50 and upwards.

Managers and Second Clerks (tour
Clerks) of Conservators' offices,
Head Clerks in District Forest
Offices and all Accountants.

MANAGEMENT AND WORKING OF THE FORESTS.

Part I.—General.

71. The notification under section 16 of the Forest Act Regular of Reserved (Madras Act V of 1882) declaring that a certain area will, Porents. on a fixed date, become a reserved forest, is published in the Fort St. George and District Gazettes, and the boundaries of the reserve so created, the rights admitted at settlement, and the date on which the notification will come into force, ane detailed therein. Copies of such notifications and of all notifications which have been issued under section 25, should be kept for each Forest district in a bound volume to be called the Register of Reserved Forests, and each notification should be numbered consecutively, according to the date on which it takes effect. Each reserved forest will occupy several pages of the volume, so as to afford space for additions and corrections. It is desirable that a sketch map on a small scale should form part of the record of each reserve.

All subsequent orders sanctioning changes in the constitution of any reserve, as well as all orders under section 18 or section 21 of the Forest Act, granting further rights within the reserve, should be embodied in the same volume under the reserve to which they relate.

72. The Register of Reserved Forests will be maintained in what office in each District Forest office; copies will be maintained in the Register of Reserved. Revenue. The numbering of notifications in each district will be done by the District Forest Officer, and will be communicated by him to the Board and the Conservator.

Registers already written up in the form prescribed in negletors paragraph 63 of the Forest Code, 1st edition, need not be maintained. dispensed with, but the printed sottlement notifications should, as far as possible, be substituted for the manuscript description of boundaries.

73. In the case of forests, for which working-plans have Reserve-book, not yet been prepared, a separate "Reserve-book" will be maintained for each area of forest likely to form a workingcircle, whether it be a reserved forest, part of a reserve or

group of reserves, information being recorded separately, as far as possible, for each reserved forest in the case of groups, under the headings and instructions given in this and the following section. This book should be opened by the District Forest Officer as soon as the notification under section 16 of the Act has issued and should contain the printed orders of Government, sanctioning the constitution of the reserve and the Gazette notification under section 16 of the Act. No entry should be made, except under the authority of the District Forest Officer in each case. The "Reserve-book" should contain the following information:-

(a) A descriptive analysis of the forest;

(b) Description of final demarcation, with statement of cost and explanation, if the line laid down deviates in any way from the sauctioned boundary;

(c) A record of lines of communications opened, with cost

thereof and other information;

(d) A record of cultural operations, as well as works of improve-

ment, with results;
(c) Record of fire-protective measures with their annual results;

(f) A record of establishment maintained;

(g) Annual summary of resenue and expenditure;
(h) Inspection notes by District Fore-t Officer and Conservator (i) Any other information bearing upon the working or management of the reserve.

Several pages must be left blank under each of the above items, so that the Reserve-book may, in course of time, contain a complete history of the forest and may furnish all the information required for the compilation of a regular working-plan.

Similar books may, if practicable, be kept for leased or protected forests, under the control of the Forest Department.

When a working-plan has been prepared and sanctioned, the Reserve-book need be no longer maintained as the Control book takes its place (section 88).

Register of annual yield.

74. A detailed record of the actual yield of the forest, including all forest produce shall be entered monthly from Forms Nos. 7, 8, 13, and .8 in Form No. 4 in which an abstract shall also be entered at the close of the Forest year. A copy of this abstract shall be entered in the Reserve-book.

Chap.'II. Part l.

GENERAL-continued.

75. In each Forest district the District Forest Officer District Forest Note-book will keep a permanent note-book, in which he will, from time to time, record all noteworthy occurrences bearing on the management and improvement of the forests of his district, and his suggestions for their future administration; the results of his observations regarding the habits and wants of . important species of trees; and further matters which, in his opinion, it is desirable to record. This note-book will be styled the District Forest Note-book.

The object of this note-book is to maintain in a permanent, object of the note-book. form a running history of forest matters in each district, hased upon continuous local observation. In respect of particular forests the note-book should not contain matter that has already been recorded in the Reserve-book, but may, if necessary, refer to the said record.

The note-book should be large enough to contain notes for a number of years; it should be taken into camp (but not as a rule into the forests during inspection) so that entries may be made in it whilst facts are fresh in the District Forest ·Officer's mind.

The book is not to be maintained in diary form but as a reference book of general information in which a newlyposted District Forest Officer can find at once information on various subjects without being compelled to wade through pages of mixed material.

Entries should be made under various heads and subheads, to each of which one or more pages should be assigned. The following are the principal heads required, but the list is not exhaustive and the District Forest Officer should enter any information of general interest or utility:-

- (1) List of reserves (by Ranges, with areas and dates of final notifications).
- (2) List of roads (length, when constructed, gravelled, metalled or earth).
- (3) List of buildings (accommodation, cost, date of construction, how used; furnished or unfurnished, nature of water-supply).
- (4) List of plantations.
- (5) List of topes.
- (6) List of sale-depots.
- (7) Distribution of establishment (by Ranges, head-quarters and boundaries of Ranges, beats, etc.)

(8) Works required (by Ranges, proposals with approximate cost and relative urgency of each, dates of commencement and completion).

(9) Notes on each reserve separately.

(10) Notes on principal species (a page for each; distribution, growth, coppice, dates of flowering, seeding, age at maturity, utility as timber, fael, charcoal and of minor products-; as regards exotics, date of introduction).

(11) Observations on annual flow of streams as affected by denudation or reafforestation of catchment area. (Highest flood level, duration of floods, hot weather flow, etc., with condition of growth in catchment area.)

(12) Fodder-supply—Approximate dates for cutting grass, cost of cutting, harvesting, baling and transport—rates

(18) Markets and market rates for various kinds of work and produce. Every cutry must be dated and initialled by the officer

who makes it.

Note-book to be inspected by the Conservator.

The District Forest Note-book should always be inspected by the Conservator when visiting the district, and the date of this inspection, with such remarks as the Conservator may wish to place on record, should be duly entered therein.

Note-book to be kept by Sub-diresional Officer.

76. A similar note-book should be maintained by each Sub-divisional Officer, and should be inspected from time to time by the District Forest Officer.

Porest Range Note-book.

77. A note-book will also be kept by each officer in charge of a Range and will be called the Forest Range Note-book. This should contain information of the same nature as the District Forest Note-book, but should be confined to a record of observations and facts likely to prove useful in the preparation of Working-Plans. In this note-book will be entered, at such intervals of time as may be prescribed by the Conservator, a price list exhibiting the current market rates, at which the various descriptions of timber and other forest produce are sold at different places in or near the Range, as well as the results of forest auctions and other sales.

There will be a column for dates and each entry will be dated as it is made. The Forest Range Note-book will be inspected, from time to time, by the Sub-divisional Officer, the District Forest Officer or the Conservator, and an entry made by each officer of any remarks he may have to make.

Plantation Note book

78. Whenever plantations are made on a large scale, the Conservator may prescribe a separate note-book for each

80. In each district the following maps will be maintained Maps. and one or more copies of each should be mounted in book form :-

- (1) A District Forest reference map on the scale of 4 miles to the inch, showing all reserves, roads, forest buildings and stations, Range divisions, and other items affecting the administration of the forest.
- (2) A Range Forest reference map, posted as above, but in greater detail, and showing names of hills and streams, minor forest stations, such as forest guards', permit officers', and tannahdars' head-quarters, etc.
- (3) Separate maps for each reserve, showing topographical features and all enclosures, rights of way, forest roads and stations, compartment and coupe lines, names of hills, streams, etc. Reserves that adjoin one another may, if desirable, be shown on one and the same sheet.
- (4) Separate working-circle maps on such scale as may be found suitable in each case.

In the case of Nos. (2) and (3) the scale of the maps, not supplied by the survey of India, must vary according to requirements, the ordinary scale being 1 and 4 inches to the mile respectively.

It is the duty of the District Forest Officers to see that all alteration of boundaries, enclosures, all new roads and buildings, etc., are promptly entered in the head-quarter maps, from which the camp copies, Range and other maps, must be posted, at least annually (vide appendix XXXV).

81. The Presidency Forest Atlas is compiled from the Providency Forest Atlas district forest reference maps referred to in the preceding section, and is maintained in the offices of the Government, of the Board of Revenue and of the Superintendent of Forest Surveys, Dehra Dun. Each Conservator should maintain the atlas, as far as it relates to his own Circlo,

Chap. II.

Management and Working of the Forests

GINERAL-continued.

The District Forest reference maps should be corrected annually up to the 30th June, and will be forwarded to the Conservator of the Circle before the 1st August following; the atlas in the Conservator's office will then be correctly posted and the district maps will be returned. The Conservator of Forests, Central Circle, is entrusted with the duty of posting the several copies of the atlas in use in the head-quarter offices mentioned above. For this purpose the Conservators of Forests, Northern, Southern and Western Circles, should forward the corrected copies of their atlases to the Central Circle Office before the 1st October of each year, when the necessary corrections will be made in the remaining copies.

Annual plan of Operations.

82. At a convenient period before the date fixed for the submission of the budget, the District Forest Officer shall prepare, in consultation with the Collector, an Annual Plan of Operations for the next ensuing financial year. This Annual Plan shall be written in three columns, the first showing the last sanctioned Annual Plan, the second any revision thereof which has subsequently been found necessary and the third the Annual Plan for the next ensuing year.

The Range being the unit of the administration, the plan of operations should deal with each Range separately.

Whorever a working-plan has been framed, the Annual Plan of Operations must be based upon the provisions of the working-plan. Where no working-plan exists, and until such plan is made, the Annual Plan of Operations must be based on the general principles of Forest Conservancy. It is a matter of the first importance to fix the maximum annual yield, and this limit must not be exceeded without the special sanction of the Conservator. The quantity of timber to be out and of other material to be taken out of a forest should be regulated so as to ensure the maintenance of the forest in a state of continuous and, if possible, of increasing productiveness. It should, as far as possible, provide for the demands of the surrounding population, in the matter of timber supply, of fuel, or of pasturage, and for the requirements of other Government Departments and of the trade. It is not, however, necessary that the yield should be uniform during a series of years, and it may often be found expedient to arrange for an intermittent yield.

Guided by these considerations, the Annual Plan of Operations should provide for fellings, thinnings, export of

Chap. II.

GENERAL -- continued.

forest produce, the grazing of cattle, protection against fire, and the execution of works of reproduction and improvement. The exercise of all rights which have been recorded at settlement will necessarily be provided for in these plans.

When the Collector has approved the Annual Plan of Operations, he will forward it to the Conservator. The Conservator shall not modify the Annual Plan as approved by the Collector without first ascertaining the Collector's views on the proposed modifications. In all matters concerning the external relations of the Department with the community, such as the provision of grazing, the supply of timber for agricultural and domestic use, the provision of firewood and the like, the opinion of the Collector should ordinarily prevail. If, however, the Collector and the Conservator are unable to agree, the Collector shall refer the matter for the orders of the Board of Revenue, through the Conservator.

The Plan of Operations must contain detailed rates for all proposed ordinary expenditure and the approximate anticipated cost of all capital works proposed.

The Budget will be framed upon the basis of the Annual

Plan of Operations.

The responsibility of carrying out the Plan of Operations will rest entirely with the District Forest Officer. No deviation from the plan may be introduced without due sanction as provided above.

83. A 'Working-Plan' is a written arrangement sanctioned by proper authority for the systematic treatment of a forest, the object being to ensure continuity of action by officers in charge and also to provide against the deterioration and for the improvement of the capital (or total producing stock) while working out what represents the interest (or average annual increase) in an orderly, useful and economic manner.

A 'Working Circle'* is, as a rule, an area subjected to one and the same cultural treatment, and which it is proposed to exploit separately, by means of distinct series of operations. Exceptionally, where the composition and distribution of the crop render this advisable, a working circle for

Working Circle .

^{*} Tracts which it is not proposed to work immediately may also, for convenience, be considered as forming working circles.

Chap. II.

Management and Working of the Forests.

GENERAL-continued.

which a definite method of treatment is prescribed may overlap portions or the whole of other working circles for which other distinct methods of treatment are prescribed.

A working-plan may be made out only for the area of one working circle or it may be made out for a larger area which may contain several working circles, e.g., some working circles may be set apart for purely sylvicultural operations, some for grazing, some for browsing, some for supply of implements and leaf manure or fodder and some for two or more of these objects combined. It is intended that the whole area of reserved forests in every district should be divided into working circles and brought within the prescriptions of working-plans. When a working-plan deals with more than one working circle, special prescriptions for the method of treatment, fellings, etc., to be adopted in each working circle must be laid down separately in the working-plan.

Rotation.

The time chosen for any proposed cycle of operations is known as the 'Rotation.'

Possibility.

By the term 'Possibility' of a forest is meant the average annual yield which can be taken from the forest without infringing on the capital stock. This 'Possibility' may be calculated by area (so many acres to be felled) as in the case of coppice, or by volume (so many cubic feet to be felled) or by number of exploitable trees, as in the case of high forest.

Block.

A 'Block' is a main division of a forest. Its boundaries

will usually follow the natural features of the country.

Compartments

'Compartments' are smaller divisions. Where a forest is divided into compartments, their boundaries, as a rule, should be either natural features—such as streams, spurs, or ridges—or existing land-marks—such as roads, rides, firelines, etc. The detailed analysis and descriptions of a forest may necessitate the formation of sub-compartments; but the boundaries of these more minute sub-divisions should not be permanently marked out on the ground.

Coupe.

A 'Coupe' is the area set aside to be operated on in a single year, and may constitute a permanent sub-division of a forest. A 'Working Circle' may comprise according to convenience of working one or more series of coupes. Where more than one succession of coupes has been prescribed, the term 'Felling series' may usefully be employed.

Blocks should be indicated by local names, compartments by Arabic numbers, sub-compartments by small letters and

Chap. II. Part 1.

GENERAL -continued.

coupes by Roman numbers. Thus Bolapalle IV, 18, c would indicate coupe No. IV, being sub-compartment c of compartment No. 18, in Bolapalle block.

A working circle may contain several blocks. It will be distinguished by a name descriptive of the purpose for which it is formed and the Range or other area with which it deals, e.g., the Kodur coppice working circle.

84. A "Working-Plan Officer" is an officer responsible Working-Plan for drawing up or revising a working-plan and may be an officer specially appointed for the purpose or a local officer. In drawing up or revising a working-plan he will be entirely subordinate to the Conservator.

Before a working-plan is commenced, however, the 'location' of the working circle or circles to be dealt with must be roughly settled, and at this stage the Collector's opinion and wishes shall be put on record in writing, specially on the provision of areas for grazing or browsing and for supply of local requirements in timber, fuel, leaf-manure, etc.

After the 'location' of the working circle or circles has been settled, the working-plan officer shall make a "workingplan reconnaissance," i.e., a careful inspection of the forest followed by a report containing-

- (i) a short description of the area of the forest for which it is proposed to prepare a working-plan;
- (ii) short notes on previous working, management and reproduction;

(iii) remarks on demand which exists or may expected;

(iv) a general outline of his proposals to meet the demand for grazing and forest produce, indicating therein and on a map the working circle or working circles to be formed;

(v) general proposals as regards the accuracy and details required for the preparation of the working-plan, whether valuation surveys will be required and if so, in what degree of detail, with the method of treatment to be adopted and whether the portion of the working-plan which relates to sylvicultural treatment is to be based on area, material with area, or material only.

Chap. II.

Management and Working of the Forests.

GENERAL-continued.

The report of this working-plan reconnaissance shall be sent to the Conservator through the Collector who will have this opportunity of seeing whether due effect has been given to his wishes in regard to the provision for grazing or other local requirements.

The Conservator will return it with his orders regarding the elaboration and completion of the working-plan. If, however, he should consider that the conditions imposed by the Collector as regards grazing or other provision for local requirements will render the sylvicultural treatment proposed for any working circle impossible, he will, before passing orders, take the orders of the Board of Revenue as to which of these considerations is to give way to the other.

Approval of working pines.

85. The working-plan shall then be drawn up under the instructions of the Conservator and when approved by the latter, shall be submitted to the Board of Revonue for sanction, accompanied by a short tabulated resumé of its prescriptions. In special cases, where it is desirable that the working-plan should be tested by actual working before formal sanction is accorded the Conservator may postpone the submission of the plan to the Board, and arrange with the District Forest Officer for the working of the area on the proposed lines for such period not exceeding three years as he may think fit.

Reference to the Inspector-General of Forests in connection with working-plans, The Conservator may consult the Inspector-General of Forests direct with regard to technical points at any period of the proceedings for the formation of a working-plan, and the Inspector-General will also answer any similar references on technical matters from the Board of Revenue. The more formal and detailed references, however, and especially such as may necessitate personal inspection by the Inspector-General, should be submitted through Government—vide appendix XIII.

Miscellaneous statements.

(ii) The year for which operations are prescribed, will,

as a rule, be the financial year.

- (iii) The amount of detail requisite in the compilation of the working-plans will depend upon the demands which are made on the forests, the nature and value of the produce removed from them, and the other purposes which they are to fulfil.
- (iv) Where the demand exceeds or even equals the possible outturn," working-plans must be prepared with the greatest minuteness, and everything must be arranged so as to obtain the highest outturn which the forest is capable of returning under the most careful management. Where on the other hand, the demand is as yet below the ordinary capability of the forest, a more simple and expeditious procedure may be followed.

(v) With a view to bringing all important forests, for whose produce a demand exists or is likely to arise in the near future under systematic management as soon as possible, the first working-plans may be of a simple description and based on such data as may be readily obtainable to be succeeded by more accurate plans as the detailed information

required for their preparation becomes available.

(vi) The officer who prepares a working-plan will be held responsible for the accuracy of the statistical information it contains: provided that in cases where the conditions are such that the collection and record of such information can safely be entrusted to his subordinates, the names of such subordinates shall be mentioned in the Working-plans Report. The Working-plans Officer must, under any circumstances, make a personal inspection of all portions of the area dealt with, which it is proposed to exploit under the provisions of the plan, and satisfy himself that all information, however - collected, in respect of such portions is accurate.

87. When a working-plan has received the sanction of periations the Board of Revenue, no deviation shall take place from its from working

prescriptions with the following exceptions, and under the following authority:—

Slight deviations not amounting to a revision of the principles adopted, in deficit of prescribed working either of material or area, may be sanctioned by the Conservator, who will subsequently report the matter to the Board of Revenue. Considerable or continuous deviations in deficit require the sanction of the Board.

Working in excess of the prescribed amount may be sanctioned by the Conservator when such excess, either of material or area, is caused by the accumulation of balances due to deficit working in prerious years. In any other case of excess working, the sanction of the Board of Revenue is necessary.

For changes in the character or principles of working, the sanction of the Board of Revenue should be obtained; but the Conservator may act in anticipation of such sanction in case of fire or any sudden accident necessitating a change of plan.

Copies of the orders sanctioning modifications must be recorded with the working-plan and referred to in the remarks column of each control form.

The revision of a working-plan requires the same formalities as the original preparation of a working-plan.

Controbbook.

- 88. (i) For the control of all areas under working-plans, the following control books will be maintained in the District Forest office:—
 - (a) Form No. 5 showing the exploitation of results of working, including all the purposes for which a working circle is utilized.
 - (b) Form No. 6—a record of works of reproduction and improvement.
 - (c) A Control Journal in the form prescribed in appendix XIV.

Note, -A journal in the same form should be maintained by the Range officer in direct charge of each area under working-plans.

- (ii) The entries in Forms Nos. 5 and 6 will be made monthly unless the Conservator otherwise directs and annual abstracts of Form No. 5 will be entered both in the form itself and in the Control Journal under the various sub-heads of "Yield and Working."
- (iii) In the case of fellings being below the quantity, permitted to be removed under the working-plan, the balance should (unless the contrary be ordered by the Board of Revenue, in which case the orders should be quoted in the "Remarks" column) be brought forward as the balance available to be removed in the following year, in addition to the regular provision for that year. Should the fellings have exceeded or fallen short of the provisions of the working-plan, the authority under which the deviation has been permitted

(section 87) will be quoted in the column of "Remarks." Any felling in excess (whether of material or area) of the provisions of the plan will, if so ordered, be deducted from the quantity prescribed for the fellings of future years.

(iv) The record of works of reproduction and improve- Record of ment will show in a summary form all steps taken towards works fire-conservancy, cutting of creepers, planting and sowing, erection of buildings, opening of communications, etc. Should the prescribed works not be completed during the year, the balance left undone will be entered in Form No. 6, as work to be carried out during the following year, in addition to the regular provisions of the working-plan.

(v) No control statement should refer to more than one working-plan, and if more than one working circle be dealt with in one working-plan, separate entries should be made

for each working circle.

(vi) The control of the due carrying out of the prescriptions of working-plans rests with the Conservator to whom the District Forest Officer shall submit yearly by the 15th May-

> (a) An abstract of Form No. 5. (b) An abstract of Form No. 8.

(c) Copies of the entries made during the year in the Control Journal.

The Conservator will examine these returns and bring to the notice of the Board any deviations he may detect, for the issue of the necessary orders. He will forward these returns or copies of them for the information of the President. Imperial Forest Research Institute, Dehra Dun, so as to reach him by the 1st September.

Part II.—Accounts of Timber and other Stock, etc.

89. The produce of all fellings must appear either in Follings, stees Form No. 7, No. 8, No. 13 or No 18.

The "gross yield" of a forest is the total volume (in cubic feet, solid) or quantity of all produce felled or out, whether removed and utilized or not. The "outturn" or not vield comprises such portion of the gross yield as has been or will be utilized.

^{* &}quot;Outturn" comprises all forest-produce which is brought on to any stock or sale return including that provided for in section 103, as well as outturn of illigit fellings.

- 90. Under the system of Government working two classes of depots will be established—
 - (1) Forest depots; and
 - (2) Sale depots.

In some cases special plots will, from time to time, be selected by the District Forest Officer as forest depots, but where this is not done, the areas in which the fellings have been made will be considered as such depots.

All places at which timber or other forest produce is habitually stored for sale are called sale depots. No such depot shall be opened or closed without the approval of the Collector and Conservator.

Rules for the maintenance of registers in depots. 91. The following general rules are framed to regulate the registers and returns required from either class of depot. These rules may be modified by the Conservator, so as to meet the special requirements of any particular depot. In the case of forest depots, it may often be desirable to simplify the registers of receipts and disposals, and the Conservator may issue instructions accordingly.

Registers of receipts and 188408.

- 92. The gross yield of all timber fellings by Government agency will be shown in Form No. 7—the outturn being transferred to Forms Nos. 8 and 10. The gross yield of all other fellings by Government agency will appear in Forms Nos. 8 and 10. As the timber and other forest produce reaches a forest or sale depot, it will be shown in the register of receipts (Form No. 8), and on its despatch or disposal in the register of disposals (Form No. 9). The depot number in column 5 of Form No. 9 must correspond with the number in column 1 of Form No. 8. Separate registers should, as a rule, be kept for each description of produce—such as,
 - (a) Timber, including drift and waif wood,
 - (b) Bamboos,
 - (c) Fuel, and
 - (d) Other forest produce.

Form No. 8 should be closed and the balance on hand brought forward to a fresh account on the 1st July of each year.

Scantlings, if of uniform measurement, may be registered in lots and each piece will be marked with the depot mark.

Logs and scantlings, when sold, will be marked with the sale mark.

In fuel sale depots, the receipts in Form No. 8 are shown in tons and the form must be balanced at the close of each day's transactions—the headings of columns 6—10 being altered as follows :--

These provisions should also be applied, as far as is practicable, to forest depots.

The officer in charge of the depot will certify at the foot of Form No. 10, that the amount of timber and other produce entered as balance on the day of submission is correct.

A monthly summary will be prepared in the District Forest office of all the returns in Form No. 10 received from Range Officers. Each description of produce will be grouped together, and the numbers and quantities will be totalled separately. The receipts and issues of forest depots will be shown separately from those of sale depots.

95. Form No. 11 will show the sales, the proceeds of which are credited under Revenue head I, and so much under head III as is obtained by the sale of drift and waif wood and confiscated forest produce collected by Government agency.

The entries in this form will consequently comprise all disposals by sale of timber and other produce shown in Form No. 10, the totals for forest depots and sale depots being shown separately.

Separate returns for drift timber opert96. From districts where drift timber operations are of sufficient importance, separate returns may be required in Forms Nos. 10 and 11.

97. The stock at each sale depot must be counted periodically at such intervals as the Conservator, may direct, the depot books being balanced at the time of counting. A special report of each taking of stock must be submitted to the Conservator—vide also section 210.

Bill and receipt books for produce sold from depots 98. A bill book in triplicate form (Form No. 19) shall be used for all credit sales of timber and other produce from depots and for each transactions of such magnitude that the details cannot be entered in Form No. 20 * which is a receipt book in triplicate form for receipts of money paid. For all timber or other forest produce sold other-permits for timber wise than from forest or sale depots, a permit must be given for tumber or forest by the persons authorized to grant it before any of the otherwise than aforesaid produce can be removed by the purchaser. This permit will, in general, be issued only after payment in full The form of the permit may be altered by Conservators under the orders of the Board of Revenue as circumstances may require.

Form No. 13 will show all sales of which the proceeds are credited under Revenue head II, arranged and totalled in horizontal lines under their respective sub-heads.

101. All items of revenue, including those shown in Outstandings Forms Nos. 11 and 13, which are not fully realized during the Revenue. month, will be entered in detail in Form No. 14 (Outstandings on account of Revenue). The return for March in each year will be accompanied by a brief explanation of the circumstances under which each item of revenue, which has been outstanding for six months or more, remains unadjusted.

If any outstanding revenue becomes irrecoverable, the Board of Revonue should be addressed for sanction to write it off if the amount exceeds Rs. 200. Conservators of Forests are authorized to write off irrecoverable revenue up to Rs. 200 in each case. When sanction of the proper authority is received, the amount should be entered in Form No. 14, in the column 'Recoveries during the month,' a reference being made in the 'Remarks' column to the sanction under which the entry is made.

When leases are granted for certain fixed periods for the collection of produce, the whole amount of the lease should be shown in Form No. 14 as outstanding, and full details must be given in the Remark column stating the dates on which instalments are payable. But in the case of leases which are granted at a fixed amount per annum, only the amount due for one year should be shown as outstanding in this form. An estimate should, whenever practicable, be made of the quantity of produce removed, and the total estimated quantity should be shown in Form No. 13 once only, when the amount of the lease appears in column 6 of that form.

A register of leases in Form No. 15 shall be maintained in every District Forest office; in this register all leases, whether of land or of forest produce shall be entered, but in the case of land leases for a term of years, only actual outstandings to date need be shown in Form No. 14.

(1) For the construction of large works of public ntility such as railways, tramways, and the like and to village communities, public bodies, departments of Government or sections of the community in their collective capacity 2,000

(2) In other cases 500

Within these limits and subject to the principle that no free grant is ordinarily admissible to another department of Government unless the Forest Department will benefit thereby, such grant may be sanctioned by the Board of Revenue. Collectors are empowered in cases of poverty or special calamity or in other exceptional cases to issue free grants to village communities or private individuals up to an aggregate value of Rs. 1,000 and Rs. 200 respectively. on their own responsibility to village communities up to an aggregate value of Rs. 250 and to private individuals up to Rs. 50 in each case; larger grants should receive the approval of the Collector; as also all grants proposed by other District Forest Officers. In similar cases, the Revenue Divisional Officers are empowered to sanction free grants of similar or other produce of unreserved lands only to village communities up to an aggregate value of Rs. 100 and to private individuals up to Rs. 50 in each case. They should forward a copy of their order in each case to the District Forest ()fficer to enable him to enter the grant in a register maintained under this section. All free grants should, if possible, be supplied from unreserved lands, and, when this is not possible, from the nearest working circle provided that the provisions of the working-plan shall not be contravened without the sanction of the Board of Revenue.

All applications for a free grant should state the money value of the grant applied for, and if they exceed the Collector's powers of sanction, should be submitted to the Board through the Conservator.

Every free grant for the construction of a railway or

tramway must be reported at once to the Government.

All free grants will be entered in a register (Form No. 18). Produce removed by right-holders or under privileges granted by Government should, if possible, be shown in the same form, the nature of the right or privilege being shown in the remark column. An extract from this register should be submitted to the Conservator through the Collector at the end of each forest year.

Note.—A Collector or Divisional Officer cannot make, under the above rules, separate grants at one time to a number of individual members of a village to an aggregate amount indefinitely in excess of the amount he could grant to a village community as a whole. Grants made on any one occasion to several private individuals for a common purpose should be considered as made to sections of the community in their collective capacity and the powers of sanction exercised accordingly. In other words, the power of sanction by Collector and Divisional Officer is limited to Rs. 1,000 and Rs. 100

104. A register (Form No. 21) of all receipts and dis- Register, of posals of stores, tools and plant shall be maintained in each District Forest office. This register must be written up as stock is received or disposed of, and will be closed and balanced at the end of each forest year, when the figures will be carried into the Annual Return (Form No. 85).

ACCOUNTS OF TIMBER AND OTHER STOCK, ETC .- continued.

All articles of stock must be priced annually within market rates but never beyond cost price, and the rates being thus fixed, the aggregate of the values assigned accordingly to the different articles in store shall make up the sum held at debit of stock in the books, the difference between the value thus obtained and the existing book value being treated as loss that has occurred during the year by depreciation. As regards forest buildings their cost price less depreciation as estimated by the District Forest Officer should be entered, as many such buildings have no market value. The totals representing the balance in stock at the close of the year with the existing value will then be carried forward in the register as the opening balance of the succeeding year. In this manner it will be easy for the District Forest Officer to calculate at any time during the year the value of stock on hand, and the inspection of these registers by Conservators will be facilitated.

A similar register will also be kept in the office of each Conservator, who will prescribe the form of register to be kept in Range offices.

The District Forest Officer should further maintain separate registers (Form No. 22) of stores issued to each Range under his charge. A list of the stores issued should accompany each issue and should be returned to the District Forest. office with the receiving officer's signature. These lists will be numbered to correspond with the entries in Form No. 22 and on being returned should be filed with that register. The District Forest Officer should take his register with him when inspecting the Range and should check the stores actually in hand.

Ulassification of stock, 105. Stores, tools and plant should be classified in the register as follows, one or more blank pages being left under each head for entries during the year:—

Any noteworthy divergence from the figures of previous quarters should be explained in the remark column. These reports must be carefully scrutinized by the Conservator.

107. No sales shall ordinarily be effected without paysales of delivery.

Sales of ferest produce, live. ment in full at or before the time of delivery.

Conservators may, however, authorize Forest officers of credit sales parallel and above the rank of Ranger, in exceptional cases, and exceptional cases, and exceptional cases only. under such conditions regarding time of payment as they may lay down, to effect sales without payment in full at the time of delivery.

Every such transaction, of which the value exceeds Rs. 1,000, should be reported to the Board of Revenue, through the Conservator; and if the value exceeds Rs. 10,000, the previous sanction of Government should be obtained. Departmental sales of firewood on credit to Railway Companies are exempted from the operation of this rule.

Sales to public departments, with which the accounts are adjusted by book-transfer, are exempted from this rule. Exceptions may also be authorized by Government in the case of special transactions with other purchasers.

108. No timber or other forest produce, and no live-stock, sanction repermit forms, stores, tools, plant or furniture may be written witing off off the accounts of District Forest or subordinate offices withstores, oto out the Conservator's sanction. When the value of the produce, live-stock or other property exceeds Rs. 500, the sanction of the Board of Revenue is required.

Applications for sanction to write off dryage or wastage should be submitted in Form No. 12.

Conservators may also transfer live-stock, stores, tools or plant from one Forest District to another within their respective charges, transfers from one Circle to another being made by the Board of Revenue.

Before sale is ordered, the Collector of the district should be consulted as to whether the building is required for any department of Government.

The various divisions of Revenue and of the two main heads of Expenditure indicated by Roman numerals (I, II, III, etc.) are called 'budget heads' and the sub-divisions of any budget head are styled 'sub-heads.'

The term 'major head' is used in accounts to cover all Forest Revenue and Expenditure as distinguished from Land Revenue, etc., while the term 'minor head' is synonymous with 'budget head.'

Refunds of forest revenue should be charged to major head '1-Refunds and drawbacks' irrespective of the year in which the revenue is credited.

The sub-heads are intended to exhibit, as far as is practicable, the income and expenditure on account of timber, wood, bamboos and other descriptions of forest produce.

Receipts under the commutation system, by which several descriptions of produce may be removed from the forests on payment of a lump sum, will be entered against a separate sub-head under head II.

The charges incurred on account of timber and other produce removed from the forests by consumers or purchasers cannot, as a-rule, be shown separately under the different sub-heads, and therefore no attempt has been made to sub-divide A-II.

Temporury

chargeable to
A I and II.

112. Temporary Forest Establishments other than those required to assist the permanent staff in the execution of its ordinary duties (vide section 8), and ordinary labour will be charged to the proper budget head under 'A—Conservancy and Works.'—For instance, those employed in timber operations will be charged to A-I.—'Timber and other produce removed from the forests by Government agency'; and those entertained for the collection of revenue derived from 'Timber and other torest produce removed from the forests by consumers or purchasers,' will be entered under A-II.

Head IV under Revenue and Expenditure,

113. Head IV is intended to include the share of the revenue from forests which are not managed by Government officers, but in which Government has a share or has certain other rights. The charges incurred on account of these heads should be entered under A-IV.

Head V under Ecrenus.

114. Head V will include all revenue that cannot be correctly classified under heads I to IV.

The following items of receipt fall under V:-

- (a) Fees levied on time-expired permits.
- (b) Rout of land under temporary cultivation.
- (c) Rent of departmental buildings.
- (d) Fees on registration of property marks.
- (e) Bale-proceeds of condemned stores.
- (f) Compounding fees and componention for damage awarded by Courts.
- (g) Fees on shooting licenses. -

Chap. III. Part 1.

CLASSIFICATION OF REVENUE AND EXPENDITURE-continued.

115. It should be distinctly understood that heads I and Head A.V. II under Revenue as well as under Conservancy and Works are intended to relate to all forests managed by Government. Revenue realized or expenditure incurred on account of forests managed by Government, a certain share of the Revenue of which is paid to other persons, as is the case in certain leased forests, will also be entered under these heads; but in these cases the amount of such share in the revenue which is paid to shareholders should be debited to A-V.

116. Heads V, VI, VII and VIII, under A-Conservancy Heads A.V. VI.

and Works have no corresponding heads under Receipts. Head A-VI.—Live-stock, stores, tools and plant:—

Head A.VI.

(a) Purchase of live-stock.

(b) Feed and keep of live-stock.

(c) Purchase of stores, tools and plant.

Expenditure on account of the hire of live-stock, and repairs to stores, tools, and plant, will be charged under the appropriate head as part of the outlay on the work for which they are required. Expenditure on the capture of wild eleplants and their training is charged to A-VI (a): Boats and rest-house furniture are charged to A-VI (c).

Head A-VII.—Communications and Buildings:—

Head A-VII.

(a) Roads and bridges.

(b) Buildings.

(c) Other works.

The sub-head VII (a) will include timber slides and tramways for forest purposes, etc., when they are of a permanent character.

Temporary structures should be charged under timber expenses. In cases of doubt, the expenditure should be

charged under A-VII (a).

This sub-head will also include all reads either for the export of produce or the protection and supervision of forests or plantations. Under VII (b) will come all expenditure on permanent buildings including Forest Rest-houses, houses for Rangers, Deputy Rangers, Foresters and Forest Guards. Depot buildings, Tannah stations, etc. Huts for fire-patrols should, however, be charged to A-VIII (f), and, similarly, temporary huts for coolies employed in timber works will be charged to the appropriate sub-head under A-I, or temporary tannahs under A-II

Part I

CLASSIFICATION OF REVENUE AND EXPENDITURE-continued.

Sub-head VII (c) will include other works such as canals, wells, clearing obstructions in rivers, and similar operations not strictly appertaining to roads and buildings.

Head A-VIII.

- 117. Head A-VIII.—Organization, improvement and extension of forests:—
 - (a) Demarcation.
 - (b) Cost of forest settlements; compensation for land and rights.
 - (c) 1. Local Surveys and 2. Surveys of India.
 - (d) Working-plans.
 - (e) Sowing and planting.
 - (f) Protection from fire.
 - (g) Other works.

Under sub-head VIII (a) will come all charges connected with the formation and maintenance of boundary lines, whether on external boundaries or as defining blocks and compartments, including the cost of such demarcation as is required for forest settlements. It frequently happens that a broad cleared line is maintained, and serves both as a boundary line and as a fire-protection line, and so with the internal lines which are made between the various blocks and compartments of a forest; indeed, these latter usually serve a third purpose simultaneously, viz., they act as export and inspection roads. In such cases the head of service to which the charges will be debited will be regulated by the primary object for which the clearance was made and the sanction order of the work. The entire cost should, however, always be charged under one sub-head only.

Sub-head VIII (b) will include cost of settlements and compensation for land taken up for forest purposes, as well as expenditure incurred on the settlement of rights and privileges. A register of all lands acquired for forest purposes must be maintained in Form No. 88.

Sub-head VIII (c) will show the cost of all topographical surveys.

Sub-head VIII (d) will include the cost of valuation surveys, enumerations and other works connected with the preparation of Working-plans, including such extra establishment as is sanctioned for this purpose.

Sub-head VIII (e) refers to all sowing and planting operations, whether they are undertaken for the purpose of forming plantations, maintaining topes, or of assisting natural

reproduction. The expenditure incurred on preparing the ground previous to sowing and planting will be charged under this sub-head.

Sub-head VIII (f) will show the cost of clearing and maintaining internal and external fire-lines, whether for the protection of natural or artificial forests. Such extra establishment as is sanctioned for this purpose, as well as the cost of suppression and extinction of fires which have broken out, wages of labour, and so forth, should here be charged. Charges on the protection of buildings, bridges, and similar works, as well as of stores or timber or other produce, in the forest, in store or drift, will, however, be charged to their appropriate sub-head under I, III, VI, or VII, as the case may be.

Sub-head VIII (g) will include all general forest work, such as fencing and enclosing, thinning, pruning, lopping, and girdling useless trees, cutting creepers, the formation of tanks and reservoirs, and the like, in the forests. Similar works in plantations should be charged to VIII (e).

118. Head A-IX.—Miscellaneous:—

Head A.IX.

- (a) Law charges.
- (b) Other charges.

Under the sub-head IX (a) come stamps, fees and costs, other than pleader's fees, connected with the institution or defence of cases in court—vide paragraph 5 of Board's Standing Order No. 97. Under IX (b) will come charges connected with the collection of specimens for museums, exhibitions, etc., as well as rewards to officers and informers under section 63 of the Forest Act.

119. Expenditure under A is either 'Ordinary' or 'Ordinary' and Capital Ex. 'Capital.' 'Ordinary' expenditure comprises the cost of all penditure. operations which are necessary to produce revenue or which are concerned with the maintenance and the ordinary operations undertaken annually for the improvement of the forests. Thus the cost of timber operations, keep and feed of cattle, as well as annually recurring charges for forest improvement, protection from fire, etc., are 'Ordinary' charges.

'Capital' expenditure, on the other hand, represents charges which do not recur annually, or which do not yield an immediate return. Capital charges frequently yield either no return at all for a series of years, or repay themselves

only gradually in cash returns or in local benefits of another kind, such as the increase of the water-supply, protection against storms, erosion, or land-slips. Each proposal for such expenditure must be regarded as involving capital outlay, and must in the first instance be worked out in full detail, to show that all the measures have been carefully considered beforehand, and that the result is likely to be ultimately profitable to such a degree as to justify the outlay.

Part II.—Budget Estimates.

Dates for submission of Annual Budget Estimates

120. Annual budget estimates for the financial year will be prepared by the District Forest Officer and submitted through the Collector to the Conservator of the Circle, so as to reach him by the 15th September, in the form and with the explanatory memorandum prescribed in appendix XV. The Conservators will then proceed to deal with them as laid down in the appendix and forward them so as to reach the Board not later than the 15th October. Board of Revenue will compile the budget estimate for the Presidency in Form No. 25 and will submit 'the portion relating to 'Expenditure-II. Forests' to Government through the Accountant-General by the 4th November and that relating to 'Receipts-IX. Forests' by the 20th November. In order to prevent delay in the transmission to Government of the departmental estimates by the Accountant-General, it is necessary that statements of the numbers of the officers and other Government employees and their allowances for which provision is made in the estimates should reach his office in advance of the estimates so as to allow of sufficient time for their examination and for the rectification The Accountant-General's instructions in the matter are contained in his circular General letter No. 3, dated 27th June 1906. The Conservator will furnish the Board not later than the 25th July in each year with the necessary statements so as to enable the Board to furnish the Accountant-General on the 1st August with the required information.

Estimates for Refunds. Refunds are not included in the Forest budgets, but separate estimates for refunds must be despatched by District

Forest Officers to Collectors by 15th August and forwarded by Collectors so as to reach Conservators by 25th August; the Conservator's circle estimate must reach the Board by the 1st September and the Board's estimate should reach the Accountant-General and Government, respectively, on the 10th and 20th September.

The budget estimate under 30-B and 30-D-Stationery nuder and Printing—'Stationery purchased in the country' and Printing. 'Printing at private presses' should be submitted by the Conservators so as to reach the Board by the 1st October and the Board's estimate should reach the Accountant-General on the 5th October.

The actuals of receipts and expenditure of the previous year in the circle required for the preparation of the budget will be adopted from the figures furnished by the Accountant-General under section 218.

The Accountant-General will send to each Conservator at the close of September, or earlier if possible, the monthly summary of revenue and expenditure (Form No. 50) of the ·Circle for the preceding month.

. The Board's estimates should be based on the actuals for the first six months of the year current; and revised figures with reference to actuals for seven months should be sent before the 8th of December where the differences are import-To enable the Board to do so the Conservators will report before the 4th Docember if they have any important modifications to suggest in the figures of the Board's revised estimates.

The Accountant-General will forward the actuals of September to the Board sufficiently early to enable it to submit its return before the 25th October, and those of October on or before the 25th November.

I.—The Actuals of the past year.

II .- The Original Estimate of the current year, as sanctionod by Govornment.

III .- The Revised Estimate of the current-year.

IV .- The Estimate of the ensuing year.

Bungar Estimates-continued.

The figures in 11 will be the figures of the budget estimate for the current year as already sanctioned by Government. Should that sauction deal with the figures by totals only, the distribution of such total amounts under heads and sub-heads, as approved by Government, will be entered. Original grants may be shown in black ink, and subsequent modified grants in red ink; the latter will be explained in footnotes, showing the original grant and the additions or deductions, with the authority sanctioning them.

The figures in III, the revised estimate, will be based on the actuals of as many months of the current year as may be available and an estimate of the revenue and expenditure of the remaining months.

The figures in IV, the budget estimate, represent the expected revenue and the proposed expenditure of the ensuing financial year, and they will be prepared according to instructions given in section 129.

Dotaled fience under each sub-bood. 123. The figures of the estimate must be shown separately against each head and sub-head of the prescribed form, except in the cases referred to in section 111. The introduction of new minor-heads requires the sanction of the Government of India.

but in special cases, where it may seem necessary, the sanction will be in detail. In the preparation of budget estimates armas and pies or fractions of a rupee must not be entered, and it will be convenient if figures are given as much as possible in round numbers only.

Distribution of allotu onto by Government and the Board of Revenue. 125. It rests also with Government to order the distribution of the total amounts allotted among budget heads, as the requirements of the service may demand. On receipt of the figures finally passed by the Government of India, the Board of Revenue will propare an appropriation statement allotting the figures to each Circle and Forest Division under each budget head and sub-head and communicate it to Conservators, Collectors and District Forest Officers for information and guidance. A copy of the statment will at the same time be forwarded to Government and to the Accountant-General;

but the audit by the Accountant-General will be conducted only against the grants sanctioned under each of the minor heads "A. Conservancy and Works" and "B. Establishments" for each circle.

126. Subsequent transfers from one district to another Transfersof within the total amount sanctioned under each budget head for each Circle may be made by the Conservator, who may also reappropriate funds from one budget head to another under "A. Conservancy and Works" and the sub-heads of B-III within the total amount sanctioned for each head or sub-head for each circle.

Subject to the condition that reappropriation from or to the group head "Salaries" and of savings on non-recurring expenditure to provide for additional recurring expenditure require the sanction of Government, transfers between A and B may be sanctioned by the Board of Revenue. All such transfers except those made by Conservators must be intimated to the Accountant-General, and all transfers made by the Conservators to the Board of Revenue. Applications for transfers will be submitted by District Forest Officers to Conservators in Form No. 26. Similar applications to the Board should be submitted in the form prescribed in paragraph 197 of the Madras Treasury Manual, Vol. I.

Norr.—In all cases of transfer of funds, savings under a head can be utilized only for the purpose of meeting unexpected excesses under another head. No now charge not already included in the sunctioned grants can be authorized nor can funds be directed to objects not sanctioned by competent authority.

All demands for reallotments to incomplete "capital" and Re-allotments of funds for "ordinary" works should be laid before the Conservator at Capital and one and the same time, in order that he may be in a position order. to decide how the various requirements can best be met. Accordingly, on or before 15th of April in each year, District Forest Officers will forward to Conservators statements in duplicate in Form No. 27 showing all incomplete "capital" and in Form 26 all "ordinary" works for which further funds will be required during the year. One copy of each statement with the final orders passed by the Conservator added will be forwarded by him to the Accountant-General through the Board of Revenue.

It must be understood that the figures of the revised Figures of estimate cannot be accepted as a revised reappropriation when to be statement of the budget grant, unless it is distinctly stated appropriated in the orders of Government the title in the orders of Government that they shall be so accepted.

Utilization of unexpended budget grants of one district in another. The District Forest Officer shall be held responsible for the full utilization of the budget allotments and he should accordingly scrutinize the progressive statement of revenue and expenditure prescribed in section 203 on or before the 7th of each month; but if, for any valid reason, the budget grants cannot be fully utilized, he shall intimate at once in Form No. 28 to the Conservator of the Circle the amount which is likely to remain unexpended in time to enable him to arrange for its utilization in districts where edditional grants may be required. The final intimation should reach the Conservator by the 15th February.

Information regard og matermi alteretors in revised estimates,

The Conservators will farnish the Beard of Revenue, not lator than the 10th January in each year, with complete information regarding any material alterations which they may find to be necessary in the revised estimates for the year already submitted to Government. In doing this they will pay special regard to (a) any important items of expenditure under consideration and likely to be sanctioned and incurred before the close of the year; (b) any important reductions of expenditure; and (c) later actuals. The Conservators will at the same time intimate to the Board whether any additional allotments are required for their Circles (vide section 127) or whother any savings can be surrendered. The Board will then furnish the Accountant-General not later than the 18th January with information regarding alterations in the revised estimate and apply for the necessary additional allotment or arrange for the utilization or surrender of savings as the case may be.

Circular of the Government of India, No. 5-F., dated 21st March 1895.

1. In August 1891, sections 123 and 127 of the Forost Department Code were amended, mainly in order to correct an erroneous impression that appeared to exist regarding the nature of the revised estimates of Forest expenditure and their connection with the budget estimates. It was evidently believed in some cases that to "provide" for increased expenditure in the revised estimates superseded the necessity of applying for an additional grant; and it was still more often thought that the submission of these revised estimates was the proper and only occasion for applying for an additional grant to cover expenditure which had not been provided for in the budget estimates. The orders thus revised have, however, not been uniformly observed by Local Governments and Administrations, or by the responsible

Chap. 111.

BUDGET ESTIMATES—continued.

officers of the Forest Department subordinate to them; while the Government of India have had frequent occasion to notice that confusion still exists as to the object which the revised estimates of expenditure are designed to serve, and as to the rules-regarding applications for additional grants. I am, therefore, directed to communicate the following observations for guidance.

- 2. The budget estimates are passed and sanctioned before the commencement of the year to which they apply. They provide for expenditure within certain limits; and Local Government have power, subject to well-known rules, to regulate their expenditure within these limits. Ontside these limits no expenditure of any sort whatever can properly be incurred, unless a special additional grant to cover it has been applied for and sanctioned by the Government of India.
- 3. The revised estimates (not revised budget estimates, as they are often improperly called) make no provision for any expenditure whatever; they are accepted, not sanctioned, by the Government of India; and no entry in them carries with it any authority for expenditure of any kind. They do not even provide for, or authorize, the expenditure of charges already entered in the budget estimates; for these latter alone possess authority. The revised estimates are not budgets or appropriations of money, nor do they supersede the budget estimates as the basis for the regulation of expenditure. They are estimates pure and simple, prepared for information, in order to indicate to Government how fur the expenditure already sanctioned (in the budget estimates and in subsequent additional grants, if any) will be worked up to. If the figures for expenditure in the revised estimates exceed the total of the budget estimates, and of special grants already made or applied for they clearly must be wrong, and will be corrected accordingly by the Government of India; for no expenditure can be incurred that has not been sanctioned, and, if it had become apparent, before the preparation of the revised estimates, that expenditure in excess of existing sanction would be necessary, additional sanction would, under standing rules, have been applied for at once.
- 4. The rule is that sanction to all expenditure in excess of budget provision must be applied for as soon as it becomes apparent that such expenditure will be necessary. When, however, the excess expenditure under individual heads is small, it may happen that the general review of the year's requirements which is made for the purposes of the revised estimates discloses for the first time the necessity for such expenditure. When that is the case, the application for an additional grant must be made at once, separately, and in a complete form, so that it may be disposed of quite apart from the revised estimates. It has, indeed, no connection with those estimates; for the making of the application is a condition precedent to the inclusion of the sum applied for in the estimates, in short, the estimates depend on the grant, not the grant upon the estimates.

Chap.	111.
	-
Part	11.

BUDGET ESTIMATES-continued.

- 5. As soon, then, as it appears that expenditure in excess of budget sanction will be necessary, an application for an additional grant should be made at once. It must be shown—
 - (1) that the expenditure is necessary and unavoidable, or at least in the highest degree advisable;
 - (2) that it could not have been foreseen when the budget estimates were prepared; or, if it could have been, it must be explained why the necessary provision was not made:
 - (3) that it cannot be met by re-appropriation within the budget grant for forest expenditure;
 - (4) that it cannot be met by re-appropriation from the budget grants under other major heads of expenditure which are controlled by the Local Government.
- 6. In an organization such as the Forest Department, extra expenditure may occasionally be highly advisable, though not absolutely unavoidable. For instance, expenditure which produces revenue may have to be increased in the course of the year; and if a demand should spring up for certain forest produce, it must be met at once, or the revenue may be altogether lost. But in all cases the necessity for the proposed excess expenditure must be fully explained and justified in detail: mere general references to a probable increase in the receipts are insufficient.
- 7. I am to request that the officers concerned may be enjoined to carefully observe these instructions.

Additional budget grantand re-appropriations 127. Applications for additional budget grants will ordinarily be complied with, only if the additional grant will be more than covered by a corresponding increase of revenue, to earn which the grant is required and if the proposed expenditure and revenue will fall within the same financial year. In other cases applications for additional budget grants will not be complied with, except under special circumstances which must be fully explained. Whenever it is possible, urgent wants should be met by re-appropriation from other heads, the amount being taken from provision made for works which may be deferred without injury to the public service. Applications for additional budget grants will be submitted in Form No. 29, and should reach the Board before the 1st February in each year. Applications received after that date will ordinarily be liable to rejection.

Chapter I will deal with the 'Actuals' of the past year. Chapter I. No explanation need be given in this Chapter and it will be sufficient if reference is made to the notes submitted in the tabular form prescribed in section 135.

Chapter II will deal with the revised estimate of the Chapter II, current year according to heads. When the figures of a Estimate revised estimate do not exhibit any, or only a trifling, difference from those sanctioned under each budget head, no

remarks need be entered, but when they differ, full explanation should be given, thus—

Unauth orized new charges not to be in-cluded in the budget.

No new charge may be included in the budget until sanctioned by competent authority; but a note may be made at the end of the budget (with explanation) of any fresh charge that is expected to be sanctioned and to come in course of payment during the year to which the budget relates (vide Civil Account Code, article 155 (g), volume I).

Receipts.

130. Under Receipts, the sources of revenue, the quantities of produce which it is proposed to remove, and the prices expected to be realized must be given.

Dotails re-quired in explanators note in just fleation of proposed expenditure

131. Regarding the details that should be given in the Note in justification of the proposed expenditure, the following remarks should be noted for guidance:-

A.I. Depart. mental timber operations.

(i) A-I.—Timber and other produce removed from the forests by Government Agency.

(a) Timber.

Here the number of trees to be felled, according to the working-plans of the forests, has to be entered; and when there is no working-plan, the grounds for proposing fellings to the extent estimated must be stated. The rate and cost of each operation, such as felling, lugging, carting, floating, bringing into depot, etc., in cubic feet or per log, or otherwise, must be given specifically. If it is proposed to cut

up timber into planks or scantlings, the estimated rates and cost must be specified.

Officers in charge of public works should be communicated with, and asked to state their probable requirements. Provision made by mere guess work is inadmissible. If definite information about the requirements of railways or other public works cannot be obtained in time, the estimate, both on the Receipts and on the Expenditure sides, should not take account of such work at all; but the Government will, if need be, sanction an additional grant on the necessary explanation being submitted.

A.VII. Communications and buildings.

If previous sanction has not been obtained for any proposed work, a dotailed estimate should accompany the budget. (Note the concluding paragraph of section 129.)

A.VIII, Organization and improvement,

(a) Demarcation.

It will be easy to explain what work in demarcation has been proposed, but it must be distinctly entered for each Range, thus—

Range A.

BUDGET ESTIMATES-continued.

It is not sufficient to say 'so many miles of demarcation work are expected to be done during the year.'

(b) Cost of Forest settlements; Compensation for land and rights.

The reasons for which land is to be taken up, and the orders sanctioning the purchase of rights, must here be given. The budget entry will be in the following form :--

> Rg. Plot of land of 25 acres belonging to inhabitants of A village in forest B, sub-division O to simplify boundaries, at Rs. 20 per acre. 500 To be paid to D, of village E, in lieu of right to graze 40 buffaloes in F forest 200 Total ... 700

In special cases, however, where forest settlement work is in progress, the estimates may be made in lump sum, as it is clear that no details of awards by the settlement officer can be foreseen.

(e) Sowing and Planting.

The area to be shown or planted, the quantity of seed to be sown or the number of seedlings to be planted, as well as the contemplated nursery works, should be detailed.

(f) Protection from fire.

Under this head the means devised for keeping out fire, the cost of clearances and of temporary watchers and other charges, the names offorests to be protected, with area and other necessary details, will be given.

A. IX. Miscella.

(iv) A-IX.—Miscellaneous.

- (a) Law charges.
 (b) Other charges.

It will only occasionally be possible to give details under (a). Under (b) estimates will generally be framed by comparison with the actuals of the preceding years.

Rudger Estimates-continued.

(v) B-I.-Salaries.

B.I. Salarica.

For fixed charges the detailed estimate should show the full amount of the sanctioned scale [in the case of progressive salaries, the actual salary which will be earned on the 1st April of the year for which the estimate is made—vide Civil Account Code, Volume I, article 155 (b)], and when it is found by experience that saving will arise from absence or other cause, a lump deduction may be made.

In the Explanatory Note the columns of numbers of officers employed must be carefully checked, and the rate of pay should be stated whenever possible, in order to admit of verification with the column of charges. Specific proposals for the increase of establishments and promotion to deserving officers are not to be made in the Explanatory Note. If it happen that proposals have gone up and are under consideration, a suitable provision may be made, accompanied by a reference to the case.

(vi) B-II.—Travelling allowances.

B.H. Travel ling allowers

Care should be taken to frame the estimate with due consideration of the actuals of past years.

(vii) B-III.—Contingencies.

B-III. Contin.

Contingencies are divided into two classes-

- (1) Contract contingencies and (2) non-contract contingencies. The Budget Estimate should show details separately for the two classes of contingent heads. The contract contingencies system has been extended to all Forest offices except the offices of the Madrus Forest College and the Special Forest Officer, Parläkimedi Maliahs. The system applies to the following items:—
 - (1) Purchase and repair of furniture.
- . (2) Tour charges.
 - (8) Hot and cold weather char-
 - (4) Cleaning charges.
- (5) Service postage and telegram charges.
- (6) Office expenses.

BUDGET ESTIVATES-continued.

A lump sum is annually allotted for the contract heads and this amount should be entered as the estimate. A memorandum of instructions regarding the contract contingencies system is printed as Appendix XV-A of the Forest ('ode.

In regard to non-contract heads the estimate requires careful scrutiny, and will not be allowed to exceed what the past year's actuals show without satisfactory reasons for the increase being given.

Rinis, Raies and Taxes. The estimate under sub-head (a) "Rents, rates and taxes" will include office-rents and municipal and other taxes on lands and buildings belonging to, or occupied by, the Forest Department for the purpose of offices and dwelling-houses but not those on depots or land used for other forest purposes.

Works constructed under the supervision of the Public Works Department. 132. The necessary funds for works carried out under the supervision of the Public Works Department will be provided in the Budget of that Department. The cost of works carried out under the supervision of Forest Officers will be debited against the Budget of the Forest Department. Attention is drawn to the provisions of Board's Standing Order No. 81. paragraph 1.

Details of works costing more than Rs 5,000. 133. Whenever the outlay on any one work or item of capital expenditure within the year is expected to exceed Rs. 5,000, the order sanctioning such work or item must be quoted in the Explanatory Note.

Sinfoment of Tempority Princillahments.

134. A separate statement exhibiting the comparative cost of temporary establishments according to the actuals of the past year, the Revised Estimate of the current year, and the proposed Budget Estimate for the ensuing year, should be attached to the Budget.

Books and Stores from Furope and America. A subsidiary statement should be submitted with each Budget Estimate, showing separately the estimated outlay on account of books and stores expected to be purchased from Europe and America; and the outlay on this account should be entered under the proper Budget sub-heads, viz.:—

A-VI (c).—Stores, tools and plant.
B-III.—Non-contract heads—Sundries (for books).
32.—Miscellaneous—Periodicals.

BUDGET ESTIMATES—continued.

135. Under Chapter 72 of the Civil Account Code, the Annual Appro- Department Accountant-General is required to prepare an Annual Appro- Department of Receipts and Expenditure, setting forth and Expenditure to be compared to the control of the code of the co the results of the comparison of the actuals with the estimat- Accountant ed figures of the year and detailing the causes of difference, and it is necessary that the Board of Revenue should furnish him with the required information for this purpose. During the month of August in each year, the Accountant-General will forward to the Board a statement containing the following figures :-

A .- Actuals of previous year.

B.—Budget of year in question.

C.—Revised estimate of year in question.

D.—Actuals of year in question.

The Revised Estimate figures should be the latest figures of that estimate.

The Board of Revenue will then furnish the Accountant- Board of Rev. General with an explanation of differences between B and D, detailing the causes in each case. If the Rovised Estimate differs in any marked degree from the final actuals, an explanation should be recorded of the circumstances under destinates. which it did not more exactly correspond with the actuals.

A note should be made explaining any noteworthy difference between the actuals of the year of estimate and those of the preceding year.

Every excess of actual expenditure over Budget figures should be carefully explained, and, if it is more than a petty amount, it should be shown how and why the Budget check failed and when the matter was reported to Government.

The most important explanations required are those which relate to the differences between B and D, i.e., between the original Budget and the actuals of the year in question, and they should be fully stated.

As regards differences between A and D, i.e., between the actuals of the two years, attention need only be drawn to the leading features of such differences, without very detailed remarks.

This explanation should be furnished not later than September 15th and in order to enable the Board to comply with this requisition, the Conservators should not later than August 20th furnish explanations on the above points in

CHAPTER IV. CASH ACCOUNTS.

Part I.—General Rules.

136. Every officer who is authorized to receive or Onsh book disburse money will keep his accounts in a bound Cash Book be kept. (Form No. 31), in which he will enter all money transactions as they occur, noting the head of service against each item in the last column on either side. The pages of this book will be numbered before issue. Sufficient details will be given in the column 'Particulars' to admit of the main points of each transaction being readily ascertained without reference to the detailed vouchers. The Cash Book will be closed monthly.

Form No. 31 contains two money-columns both on the receipt and on the disbursement side. The first money column on the receipt (or Debtor) side shows cash in hand and all cash actually recoived, either from the public or by the realization of cheques drawn in the District Forest Officer's favour, the second column shows the balance of the letter of credit in the Preasury and all additions made thereto. Similarly on the disbursement (or Creditor) side, the first money-column shows all actual cash payments and the second all cheques drawn against the letter of credit. a payment is made by cheque there is no need to enter the amount as cash received on the Debtor side unless payment is deferred for a day or two in which case it will also be necessary to make a further entry of payment on the creditor side.

137. All accounts must be kept in the most regular and Accounts to be kept in an open manner. All receipts, disbursements and charges of mainer, and no irregular or open manner. All receipts, disbursements and charges of whatever sort connected with the public service must be recounted clearly shown in the Cash Book; and no irregular or separate permitted. accounts are permitted.

138. Each officer who receives or disburses Government Cash chests. money should be provided with a cash chest for the custody of the Government money in his charge and will keep the

Contents of cash chest to be counted, and cash balance to by reported 139. The contents of the eash chest must be counted at least once a month, and the amount compared with the Cash Book balance. If any excess or deficit be found, an entry of it will be at once made in the Cash Book and a report will be forwarded to the officer to whom the accounts are submitted. A report of the cash balance remaining with the District Forest Officer on the last day of each month (Form No. 30) will be forwarded on the next day to the Accountant-General.

Under no circumstances shall any District Forest Officer or subordinate place any private money or other private valuables in the Government cash chest.

Verification to be made by District Forest Officer in 1 (1900). The duty of vorifying and certifying the monthly cash balance in the hands of the District Forest Officer must ordinarily be performed by him in person, but, if the District Forest Officer be absent on tour on the 1st of the month or is physically incapacitated by sickness to perform the duty, the cash balance may be verified by an Assistant or Deputy Collector or by the senior Subordinate Forest Officer present at head-quarters (excluding the Head Clork or other office employees), the fact of the District Forest Officer's absence being distinctly noted. Without the special permission of the Board of Revenue in each case, not more than two months may be allowed to clapse without a personal verification of the cash balance by the District Forest Officer. Each such verification is to be reported to the Accountant-General.

Defaication or loss of public maney, or fraud.

ι

140. Whenever any defalcation, or loss of public money, or fraud in connection with the revenue from timber or other forest produce or any defalcation or fraudulent loss of stores, tools and plant for which accounts in forms Nos. 21 and 22 are maintained is discovered, the fact should be immediately reported by the District Forest Officer through the Collector and the Conservator to the Board of Revenue and to the Accountant-General; and when the matter has been fully onquired into, a further and complete report should be submitted of the nature and extent of the loss, showing the errors committed, or neglect of rules by which such loss was rendered possible, and the prospects of offecting a recovery.

Chap. IV. Part I.

GENERAL RULES-continued.

The Board of Revenue can write off finally the irrecoverable value of stores or irrecoverable public money lost by fraud, negligence or other cause up to a limit of Rs. 500, Conservators of Forests up to Rs. 200 in each case, subject to the proviso that the case is not one calling for a modification of the existing rules or for the infliction of heavier punishment than the officer writing off the amount can impose.

141. The term 'Cash' includes currency notes and gold, Term Cash' silver, nickel and copper coins only.

A cheque received from a private individual in payment for timber, etc., sold should not be treated as 'Cash,' and its amount should not be credited in the accounts until it has been realized. Cheques drawn by the District Forest Officer or by some other Government officer in favour of the former may be considered as each while they are in transit to the Treasury for realization.

1421 (i) Conservators may authorize an advance to the Advances of extent of one month's pay to any non-gazetted officer on the permanent establishment serving under their orders, who can show sufficient reason for requiring it; but, except in cases of transfer, or (when an officer has suddenly to proceed to a considerable distance from head-quarters, they cannot authorize advances to themselves, or to any gazetted officer

without the previous sanction of the local Government under

which they are serving.

(ii) In cases of transfer, Conservators or (when the officer requiring the advance is attached to a Division) Divisional officers may authorize an advance to the extent of one month's pay, or of an amount not exceeding the travelling allowance to which he may be entitled in consequence of the transfer (when this exceeds one month's pay), to any officer on the permanent or temporary establishment serving under their orders.

(iii) Advances of pay should be recovered in three equal instalments, beginning with the month following that in which the advance is made. Advances of travelling allowance should be recovered in full on submission of the officer's travelling allowance bill.

(iv) In cases of emergency, when proceeding on tour to a considerable distance from head-quarters, Conservators and Divisional officers may sanction advances, sufficient to cover

Estimates for purchase of ire-stock, furniture, and for works

- 144. A separate estimate prepared or countersigned by the District Forest Officer is required in every case for the purchase of live-stock and furniture, and also for each work proposed to be executed with the following exceptions:—
 - (i) Items the cost of which is chargeable to 'Capital' expenditure (see section 119), and the cost of each of which is calculated not to exceed Rs. 50.
 - (ii) Items the cost of which is chargeable to 'Ordinary' expenditure (see section 119), and the cost of each of which except in the case of feed and keep of livestock, is calculated not to exceed Rs. 200.
 - (iii) Purchase and supply of tents for which separate instructions are issued in Appendix XVI.

Items under (i) and (ii) for which estimates are not required, can be sanctioned by the District Forest Officer.

Range Officers may incur expenditure without previous sanction up to a limit of Rs. 10 on ordinary urgent incidental expenses.

GENERAL RULES-continued.

145. Before any expenditure is incurred on any work for Power of sanction to which an estimate is required to be prepared, the estimate special works must be sanctioned by the authority named below, and officers incurring expenditure, otherwise than on proper sanction, render themselves personally responsible for the money so expended. The only exception to this rule is in the case of very emergent works, and the special orders of the Conservator are required before such work is undertaken, the matter being also reported to the Board of Revenue in cases where the estimate is subject to the sanction of that authority. Whenever it is discovered that a sanctioned estimate is incorrect and likely to be exceeded by more than 10 per cent, a revised estimate shall forthwith be prepared and submitted to the authority sanctioning the original estimate with a full statement of the circumstances necessitating the revision. When however the excesses occur at such an advanced stage of the work that the submission of a revised estimate is impossible, they may be dealt with in the completion report. It is the duty of the District Forest Officer to see that the above orders are duly observed in his district.

Limitation of powers with regard to the purchase of furniture

Conservators may purchase on their own authority for their own office use articles of furniture of Indian origin which do not cost more than Rs. 50 and articles of furniture not being of Indian origin which do not cost more than Rs. 100, except those which they are required to obtain from the Stationery office by clauses (f), (t) and (v) of article 98 of the Civil Account Code, subject to the condition that either there is budget provision for the expenditure, or it can be met by reappropriation without reference to Government. The same pecuniary limits govern the powers of Conservators to sanction purchases of furniture required for District Forest Offices; such purchases should not be made without the Conservator's previous sanction. Conservators should address the Board for sanction to purchase any other articles of furniture. The limits above prescribed apply to the cost of any one article and to the total cost of any number of articles of the same description. The delegation of power to purchase articles not of Indian origin is intended to minimize delay and meet emergencies.

The Board is authorized to sanction petty local-purchases of stationery and rubber stamps up to a limit of Rs. 20 in each case and the first supply of a type-writing machine to its office or to any office subordinate to it, in which the scale of establishment includes a typist's post.

The Board is also empowered to sanction the first supply of a Remtico Rapid Rotary Duplicator to any office which has been supplied with a type-writer and in which a large number of copies have frequently to be made at a time.

Furniture what to include, and purchase of stores, tools and plant in small lots, ote

146. Under furniture will be included both that for forest houses and for offices, as well as articles of office use, such as stamps, seals, scales, etc. Nothing in sections 144 and 145 shall be construed into a permission to purchase stores, tools, plant and furniture in small lots, or to carry out in portions any work, alterations or repairs of which the cost in the aggregate would exceed the maximum amounts therein fixed. Estimates for expenditure on the upkeep, repair or maintenance of roads, plantations, etc., must be prepared separately from those on their construction or formation.

Regularly recurring expenditure.

147. For all regularly-recurring expenditure of the nature of rent for houses or land, the sanction of the Conservator is

required; and if such rent exceeds in any one instance Rs. 20 per mensem, or exceeds, for the whole Circle, an aggregate of Rs. 200 per mensem, the sanction of the Board is necessary.

In the case of rent for ordinary office accommodation however, these limits do not apply, provided specific provision has been made in the budget for the purpose.

148. Provision made in the budget does not authorize expenditure unless specific sanction has been accorded.

The powers of incurring expenditure given in the foregoing sections must be exercised within budget limits; that in sections is, no expenditure must be incurred under any budget head 115 to 147. if the provision made under such head by competent authority is not sufficient to cover the outlay.

If the District Forest Officer, proposes to carry out any works not work not included in the budget, he shall submit an Budget. estimate to the Conservator, through the Collector, who shall endorse his opinion thereon. The Conservator, if unable (after such mutual representation, if any, as may be found necessary) to accept the Collector's view or to induce the Collector to accept his own view shall refer the matter for the orders of the Board of Revenue unless he decides to drop the proposal.

If it is finally decided to carry out the work, the Conservator shall provide funds on this account if he can do so; if he cannot find the money, he shall inform the District

Forest Officer accordingly.

149. The want of provision in the budget estimate does Inevitable not operate to prevent payment of any sums really due by Government, nor the want of sanction to prevent record of any actual payment. Money indisputably payable should never be left unpaid. All charges incurred must be paid and drawn at once, and under no circumstances may they be allowed to stand over to be paid from the grant of another If possible, expenditure may be postponed till the preparation of a new budget has given opportunity of making provision and till the sanction of that budget has supplied means; but on no account may charges be actually incurred in one year and thrown on the grant of another year.

invariably be adopted in the preparation of estimates. Each such estimate will consist of four parts—

- Explanatory report explaining the necessity for or utility of the work.
- (2) The detail of measurements.
- (3) The abstract of co-t.
- (4) The specification, showing the nature of the various parts of the work and the description of the materials to be used.

Whenever necessary, estimates must be accompanied by maps and plans.

Schedule of

151. To facilitate the preparation of estimates, a schedule of rates for each kind of work commonly executed shall be kept up in each District Forest Office, and subordinates must be directed to bring to the District Forest Officer's notice, from time to time, all changes which may take place. Similar schedules may, if considered useful, be kept up in each Range. Copies of the schedules of rates will also be maintained in the Office of the Conservator of Forests, and District Forest Officers will intimate through Collectors to the Conservator any alterations that may be made in these schedules.

The following units of work are prescribed :-

Unit of rate. Earth-work Per 1,000 oubic feet. Brick-work ... Concrete ... Pisé-work Road metalling ... } Per 100 cubic feet. ... Rubble masonry . . . ••• Ashlar masonry Pitching ... 152. All sanctions of estimates will be numbered con- A register of sanctions to be secutively for each financial year and entered in a register kept. in Form No. 32 in the Conservator's office, separate registers being maintained for capital and ordinary works. Extracts from these registers and intimations of sanctions accorded to expenditure upon sanctioned estimates will be communicated by the Conservator to the Accountant-General monthly in Form No. 32. The expenditure incurred on works sanctioned either by Government, the Board of Revenue, or by the Conservator will be entered in detail in a book (Form No. 38) to be kept in the District Forest Office, one or more pages being devoted to each work.

The number and date of sanction will be recorded on all vouchers which support expenditure on account of any work sanctioned on estimate.

On the completion of any such work, a completion report, ampletion with a copy of Form No. 33, exhibiting the amount sanctioned and actually expended, will be submitted to the Conservator for works sanctioned by him. For works sanctioned by the Board of Revenue or by Government, the report should be submitted by the Listrict Forest Officer to the Board through the Conservator. After verification these completion reports will be forwarded to the Accountant-General by the Couservator or by the Board of Revenue as the case may be.

-Completion reports are only required for works, not for other items such as purchase of live-stock, stores, tools, etc., or pryment of compensation for land.

The completion report will take the form of the following certificate to be appended to the foot of the copy of Form 'No. 38;--

I certify that the above work was commenced on the that I have inspected it personally on the . . . and find that the work has been carried out in accordance with the estimate, with the exceptions noted on the reverse, in a substantial and satisfactory manner as regards both materials and workmanship, and that, excluding trifling deviations and those explained on the reverse, it corresponds, in all respects, with the sanctioned plan and estimate.

When forest produce has been used or supplied for use without full payment in the execution of any sanctioned work, a statement must be appended to the completion report

showing the nature and quantities of the materials sanctioned for such use and the authority for such sanction, the quantities actually used, and (when permits have been issued) the numbers and dates of the permits under which the materials were removed.

As it may not be possible in all cases for the District Forest Officer to inspect the works himself on completion, the certificate may be signed by the Range Officer in charge of the work, so as to fix the initial responsibility, but the District Forest Officer must in such cases inspect the work as soon as possible after completion. Recoveries should rarely be made from the pay of fores! subordinates entrusted with the execution of works to cover loss caused to Government by their neglect or default. The limitations prescribed in section 47 in regard to fines apply to recoveries.

Work done by labour or con-

153. District Forest Officers will submit monthly to the Conservators a statement showing all items sanctioned by them under the provisions of section 144.

154. Work may be done either by 'labour' or by 'contract.'

Labour work is done under the supervision of the Forest establishment, permanent or temporary, and at rates previously agreed upon with the workmen. It is chiefly used only for works of small proportions or of prolonged duration. Such works as plantations, creeper-outting and the like are usually done by labour.

Contract work is usually adopted in works of greater magnitude, such as roads, houses, fences, and the like.

Contracts.

155. Contracts are of three descriptions, viz .:-

- 1. Lump-sum contracts.
- 2. Schedule contracts.
- 3. A combination of 1 and 2.

Lump-sum contract. A 'lump-sum contract' is one in which a contractor engages to execute the work with all its contingencies for a fixed sum. For this description of work the details of measurements, labour, etc., need not be given in the voucher, but the District Forest Officer must satisfy himself before payment that the work has been properly executed.

A 'schedule contract' is one in which the contractor. undertakes to execute the work at fixed rates, the sum he is

For all works done by contract a written agreement should be entered into with the contractor. Care must be taken to frame such agroements so that, in the event of a dispute, they could be maintained in a court of law. They need not, however, be stamped, even though they provide for a deposit of money as security for the due fulfilment of the contracts, but, if necessary, the documents must be registered according to the law in force for the time being.

156. Contracts and other instruments in matters con- rounted nected with the administration of forests and with the business contracts. of the Forest Department generally may be executed as shown below :--

A.—CONTRACTS UNDER WHICH REVENUE FOR TIMBER, FUEL AND OTHER FOREST PRODUCE IS COLLECTED.

These contracts may be divided into two classes, viz. (1) those in which the Department engages to extract and supply certain produce to purchasers; (2) those in which the Department sells to purchasers the right to extract certain produce for themselves.

In class (1) the source of supply, the quantity to be . supplied, the mode and cost of extraction and the rate to be paid by the purchaser, and in class (2) the area to be leased, the value of the produce, the conditions under which removal is allowed and the rate to be paid, are the chief points to be considered.

Contracts not exceeding Rs. 3,000 will be entored into and dealt with by approved District Forest Officers+; and those not exceeding Rs. 1,500 by other District Forest Officers. Contracts above these limits will be entered into and dealt with by the Conservator. This exemption does not cover leases such as the ordinary leases to collect minor produce.

sanction of the Conservator; and in cases in which several contracts are simultaneously entered into for the extraction or supply of the forest produces the above limits shall apply to the transaction as a whole, and not to individual contracts.

It must be distinctly understood that the officer empowered to make a contract will finally decide on his own responsibility in regard to each contract. It is, however, open to him to take the advice of the Conservator or not in regard to any contract. The Conservator may also, of his own motion, give his advice whenever he considers it necessary. If the officer advised disregards this advice and is in the wrong, his responsibility will be the greater.

B .-- CONTRACTS FOR EXPENDITURE ON CONSERVANCY AND WORKS.

These contracts may be entered into by approved District Forest Officers * up to a maximum of Rs. 5,000, and by other District Forest Officers up to a maximum of Rs. 2,500 provided that, if the rates approved by the Conservator in the Annual plan of operations are exceeded, the previous approval of the Conservator is required. Contracts exceeding these limits require the Conservator's sanction.

Forms of agreement for the more important classes of contract will be found in Appendices XIX to XXVIII.

Deposits,

Regarding

Accurity deposits, their nature and treatment.

- 157. Deposits with which Forest Officers are concerned are of two classes-
 - I. Post Office Savings Bank Security deposits.
 - II. Earnest-money deposits.

I. Post Office Savings Bank Security deposits.—When security is taken for the due fulfilment (a) of the duties of an office (for form of agreement, see Appendix XXIX) or (b) of a contract for work, it should, if not exceeding Rs. 500, be taken in the form of a Savings Bank Security deposit to be lodged in the name of the officer to whom the security is pledged as per rule 45 (g), section VI of the Indian Postal Guide. When the amount of the security exceeds Rs. 500, it should be taken in the form of Government Promissory Notes endoised in favour of the District Forest Officer. When depositors so desire, the amount of the security may remain in cash and be treated as "Revenue deposits." Such deposits will carry no interest.

GENERAL RULES-continued.

The following procedure should be observed:-

(i) The District Forest Officer will write a letter to the Postmaster explaining the nature of the security and requiring him to receive the deposit and to issue the pass-book in his (the District Forest Officer's) name on account of the security of A.B. (the person pledging). This letter will be forwarded to the person pledging the security who will present it with the money at the Post Office Savings Bank along with the prescribed form of Savings Bank index card signed at the foot by the District Forest Officer.

(ii) The pass-book received from the Post office will be forwarded without delay by the person pledging the security, either direct or through the Range Officer, to the District

Forest Officer who will arrange for its safe custody.

(iii) On the pass-book being delivered by the person pledging the security to a Forest Officer, a receipt for it in Form No. 20 will at once be given to him, and no pass-book shall, on any pretext whatever, be required to be delivered

without this acknowledgment.

(iv) When the security is no longer required, the District Forest Officer will, on the return of the receipt granted therefor under the preceding clause, or in exchange for a signed and witnessed receipt in Form No. 40, cause the passbook to be delivered to the person pledging the security and will furnish him with an application in the form prescribed by the Post Office for the withdrawal of the balance with interest at credit of the account. The application will be signed by the District Forest Officer and the name of the person to whom it is delivered will be entered as that of the messenger or agent entitled to receive payment. The receipts referred to above shall be numbered and filed in numerical order, the numbers being entered in column 11 of Form 34.

(v) A register of these deposits will be maintained in Form No. 34.

(vi) When a District Forest Officer has a claim against a security deposit account pledged to him at a treasury or a sub-treasury station, the amount of which is to be credited to Government wholly or partly, he will send the pass-book of the account to the Post office in which the account stands open, and the usual application for withdrawal duly signed by him with the words "To be adjusted by book transfer in the accounts to the credit of the Forest Department" written in

credit to the Forest Department and the balance still left. When, however, the account is closed by this transfer, the pass-book will not be returned to the District Forest Officer, but will be sent to the Deputy Comptroller by the Postmaster direct.*

All such applications for withdrawals received by the Post office for payment in a single day from the District Forest Officer will be included in a single treasury voucher, which will be sent under cover to the District Forest Officer the same day. The latter should, after verifying the entries, countersign and forward the voucher to the local Treasury Officer as soon as possible to enable him to initial the entry in the treasury pass-book and otherwise complete the transaction when that book is presented to him by the Post office. The District Forest Officer will watch for the voucher from the Post office and, if it is not received by the next day, must call for it.

II. Earnest-money deposits.—This class includes movey deposited with tenders or prior to bidding at auction sales or on account of timber or other produce to be purchased from the department, as for instance, when the right to collect and sell produce is leased out.

The following procedure should be observed:-

(i) The money should ordinarily be paid direct into the treasury (or sub-treasury) by the depositor, and will there be credited in accordance with the note to article 440, Civil Account Code, to revenue deposits.

No previous authority of a Forest Officer to such payment is necessary, but the designation of the Forest Officer in whose favour the deposit is made, and the purpose for which it is made, must be specified by the depositor and recorded in the receipt granted to him by the treasury, and the deposit will not be repayable without an order of the Forest Officer.

(ii) In the case of deposits made prior to bidding at auction sales, the money may be received by the officer holding the sale.

[•] Note.—The above clause applies only to those security deposits which are open at treasury it sub-treasury stations.

Chap IV.

Part I.

GENERAL RULKS-continued.

(iii) If in any other case, the District Forest Officer is satisfied that direct payment into the treasury by the depositor would be inconvenient, the money may be received by him but by no other Forest Officer.

(iv) For monoy received by Forest Officers in accordance with clause (ii) or clause (iii) receipts in Form No. 20 must be given, and except in the case of earnest-money deposited by an intending bidder and returned to the depositor immediately after the auction, the amount must be entered in the cash-book on the debter side on receipt, and must be remitted as soon as possible to the treasury, an entry being made in the cash-book on the creditor side at the time of remittance.

(v) Money remitted to the treasury in accordance with clause (iv) would be treated there in all respects as if it had been paid direct by the depositor [see clause (i)] in favour of the District Forest Officer. The name of each depositor must therefore be communicated to the treasury, and a separate receipt will be granted by the treasury on account of each.

(vi) An officer other than the District Forest Officer making such a remittance will forward to the District Forest

Officer the receipt obtained from the treasury.

(vii) Deposits passing through the cash-book in accordance with clause (iv) will appear in the classified abstract on either side of the account as "miscollaneous remittances—remittances of carnest-money."

(viii) Orders for the repayment of deposits will be given by the District Forest Officer but by no one else in the form of an endorsement on the treasury receipt (article 445, note 3, Civil Account Code). Part repayment can never be made.

(ix) When a deposit has to be lodged in the Post Office Savings Bank situated at sub or district treasury stations, the treasury chalan or receipt should be endorsed in favour of the Postmaster or Sub-Postmaster at the station and sent to him in order that a security deposit account may be opened.

(x) When a deposit is to be adjusted against revenue due (see Civil Account Code, article 351), the District Forest Officer should send to the Treasury (or Sub-treasury) officer, the treasury receipt endorsed "Pay by transfer to Forest Remittance" with instructions to debit the amount to "Repayment of deposits" by credit to "Forest Remittance" and to intimate the fact to him and the month in which the

adjustment was made. Immediately on receipt of that intimation the District Forest Officer should enter the amount in his cash book on the debtor side as "Revenue" and on the creditor side as "Forest Remittance" taking care that the entries are made in the cash book for the month in which the adjustment is reported to have been made in the accounts of the treasury or sub-treasury.

(xi) At the end of each month in which any remittances have been received from Forest Officers under clause (iv) and credited to revenue deposits, the Treasury Officer will forward to the District Forest Officer a consolidated receipt in which the numbers assigned to the several deposits in the treasury will be specified. This consolidated receipt will be submitted to the Accountant-General along with the classified abstract, in support of the debit under "miscellaneous remittances—remittances of earnest-money." Discrepancies should be explained as is done in the case of the consolidated receipts in support of debits under forest remittances (article 444, Civil Account Code).

(xii) Deposit receipts coming into the District Forest Officer's hands under clauses (v) and (vi) must be kept under lock and key with a list which should be signed by the relieving and relieved officers whenever there is a transfer of charge. Whenever a receipt comes into or leaves the possession of the District Forest Officer, an entry should be made in the list and authenticated by the District Forest Officer's initials, with date.

Refunds on account of unissued face value permits require the sanction of the Conservator who must obtain the District Forest Officer's certificate that the permits have been brought on to his permit register under his initials.

Norr.—Refunds of totonic realized by the Revenue Department from unreserved lands under its control will be dealt with in the Revenue Department.

Part II.—Account of District Forest Officers.

159. The Cash Book of District Forest Officers (Form Contents of District Cash No. 31) shall contain in the manner prescribed in section Book. 136-

- (a) A detailed record of the daily transactions of the District Forest Officer himself.
- (b) The revenue realized and expenditure mentred by Sub-Divisional Officers, Rango Officers or other disbursing supordinates in totals only, the details of those totals boing shown in the original accounts, which will be filed for record in the District Forest Office. All items other than classified revenue and expenditure will be entered in detail in the District Forest Officer's Cash Book. The opening and closing cash balances in the account of each subordinate must agree with the balances shown as outstanding against him in the District ledger (sections 197 and 193) at the commencement and close of each month
- (c) Recoveries of service payments, when made in each or by deduction on vouchers debitable to other heads than those first overcharged, will be credited in detail under the head "Cash recoveries of service payments" on the receipt side of the daily cash book and in the monthly cash necount forwarded to the Accountant-General, and, when made on bills, will not be paid into the treasury as revenue, but will be retained as part of the district cash balance. In the case of recoveries effected on bills debitable to the detailed head originally overcharged, no separate adjustment is required, the short payment on the later voucher being simply taken as a set-oft against the excess payment on the earlier vouchers. It is not intended by the rule in this clause that recoveries made in cash should not be paid into the treasury as required by article 1 of the Civil Account Code, volume I, and it should be understood that the direction here given as to the non-payment into the treasury

of excess payments recovered applies only to recoveries by short payment.

(d) The advances made to contractors and disbursers and the recoveries of the same, other than advances by subordinates made and recovered during the month.

Excess charges on account of pay should be recovered by deduction from the pay bill next disbursed after the receipt of the objection statement from the Accountant-General.

Details of all items of resenue 160. All items of revenue received by the District Forest Officer himself must be fully detailed: the Forest and Range from which the revenue is realized, the person who pays it, and the articles and quantities removed should, whenever possible, be stated. So too the entry of the payment into the Treasury should record the number and date of the receipt and the Treasury or Taluk Treasury or Sub-Treasury into which the money was paid. The Conservator may order the submission of vouchers—such as auctioneers' account sales, passes, permits or licenses—in support of the items of rovenue.

The first monthly entry in the cash column on the receipt side will be the cash balance in hand at the beginning of the month, and that in the Bank or Treasury column the balance of the letter of credit on the same date. The accounts will close with the closing balance in each case at the end of the month.

The Cash Books of District Forest Officers will, as a rule, be closed on the same day as the Treasury accounts of the District.

Revenue paid in advance 161. When revenue on account of timber or forest produce is paid in advance, the amounts will be at once credited to the appropriate sub-heads in the Cash Book, entries being made in the column of "Remarks" of Form No. 11 or No. 13 as the case may be, showing the nature of the transaction, etc. In the statement for the month in which the delivery of the timber or produce has been effected or completed, a reference will be made to the return in which the payment has been entered.

Payment of rovenue into treasuries

162. The main provisions governing the payment of forest revenue into treasuries are detailed in Chapter 23 of the Civil Account Code, Volume I. All revenue received by

duly receipted with stamps attached when necessary; these bills should be sent with the bi-monthly lists of payments.

Bills for permanent establishments

165. The establishment bill of the permanent staff of each range will be prepared by the Range Officer towards the close of each month in the form prescribed by the Accountant-General with the approval of the Board of Revenue, and will be submitted to the District Forest Officer, who, after passing the bill, will return it to the Range Officer for payment. The Range Officer will then disburse the amount and having taken the acquittance of each payee, will return the bill with the acquittance as the voucher for the entry of payment in his cash sheet to the District Forest Officer.

On receipt of bills and acquittances from all ranges, the District Fore-t Officer will prepare a consolidated bill for the whole district, including the details of his own office, and will submit the same to the Accountant-General (section 200). No office copy of this consolidated bill need be kept, but the District Forest Officer will retain the original bills in his office for record. Detailed instructions in regard to the preparation of pay-bills are given in article 58, Civil Account Code.

Abronteet Statement. If any subordinate in superior service or any Forest Guard is on leave or on deputation or is under suspension during any portion of the month, an absente statement will accompany the establishment bill, an extract of the entries in it relating to those subordinates whose appointment and promotion rest with the Conservator being submitted to that officer.

Arrear Salation.

166. Arrear salaries will be drawn on separate bills. These bills will show only the arrear items actually cleared during the month. They should be carefully checked before payment with the particulars shown in the column "Allowances held over" in the establishment hill of the month for which the pay is due, and the date of each arrear payment should be entered in the original bill.

All pay should be disbursed as soon as possible after the date on which it becomes due and payment of salaries should not be allowed to fall in arrears except in very special cases.

Claims to arrears of pay, allowances or increments. 167. The Accountant-General may refuse to investigate claims to arrears of pay or allowances or to increments which have been allowed to remain in abeyance for a period

exceeding one but not exceeding five years, unless he receives special authorization from the authority having power to appoint the officer or subordinate by or on behalf of whom the claim is made. The Audit officer should not be called upon to report on petty or very ancient claims but only on cases in which there appears to be a prima face reasonable claim and reasonable cause of delay. He may not, without first obtaining the sanction of the Local Government, issue an order for the recovery from any officer of pay and allowances erroneously drawn more than six months before the issue of the retrenchment order, unless the payment has been challenged within that period. The Local Government has power to direct the amount to be written off, if it considers that the recipiont was not in fault.

168. A single bill will be prepared for all the temporary Vouchers for establishments sanctioned for each district in the same form may establish and under the same rules as are prescribed above for perma- nent establishments, and the number and date of the Board's order sanctioning the establishment will be quoted on each bill.

174. Salaries and travelling allowances due to officers on their transfer to another Circle or District, and paid after their arrival, will be paid from and charged against the budget grant of the District to which they have been trans. ferred.

Revenue resultances to trasuries.

175. All entries in the Cash Book of "remittances of revenue to Treasuries" will be supported by vouchers in the Treasury receipt form (chalau). These forms will be supplied by the Superintendent of Stationery. When remittances to the treasury are made by means of postal money orders, the chalan may be replaced by the Treasury Officer's advice list.

The name of the Treasury or Sub-Treasury and the Treasury or Sub-Treasury number and date of each receipt will invariably be entered in the Cash Book in the column of "Particulars."

Chap. IV. Part II.

ACCOUNTS OF DISTRICT FOREST OFFICERS-continued.

176. Every chalan or advice list will be examined and initialled by the District Forest Officer, who must satisfy to be soruting limself that it bears the signature of the Accountant and Forest Officers Treasurer and, if for a sum in excess of Rs. 500, of the Treasury Officer also. Chalans for sums paid by cheques against letters of credit in favour of the Treasury Officer will not be signed by the Treasurer; the second signature on such chalans for sums under Rs. 500 will be that of the person who may have been nominated to that duty by the District Officer—vide article 308 of the Civil Account Code.

The following particulars will be given in English on the back of each vernacular receipt:-

No payment to be made on a roucher or order signed by a clerk instead of the head of an office. 180. No payment may, under any circumstances, be made on a voucher or order signed by a clerk instead of the head of an office. Nor may any payment be made on a voucher or order signed with a stamp. No letter or order referring to accounts matters shall be recognized unless such letter or order is signed by the head of the office himself or another gazetted officer on his behalf.

Transactions with public departments.

181. Revenue derived from sales to public departments will be adjusted by book transfer. A statement (Form No. 36) in triplicate will be sent to the officer to whom the produce has been supplied; he will sign and return the original which will then be used as a voucher (section 163).

Bilisand priced invoices from supplying departments.

A similar procedure will be followed in the case of payments to other departments. Bills or priced invoices received from a supplying department should be at once adjusted in the Cash Book by credit to the department concerned, and by debit to the proper budget sub-head, the duplicate bill or invoice, duly receipted, being promptly returned. The departmental number and date of each bill or invoice for supplies received from another department and the date of acceptance of each bill for timber, etc., supplied to another department will invariably be quoted in the entries in the district cash accounts.

A quarterly return (Form No. 89) of timber (including bamboos) suitable to the requirements of public departments will be sent to the Conservator on the 10th of January, April, July and October from districts in which any such timber or bamboos are in stock. If there is no such timber the fact should be reported on a post card.

Note.—The cost of printing work done at Government Presses for the Forest Department will not be charged to that department.

Daily muster roll and labour bills. 182. For works executed by labourers on daily or monthly pay, a muster roll in Form No. 37 must be kept. An abstract in Form No. 38 will be the voucher.

Vonehers for other pay ments, 183. Vouchers for all other payments will be in form No. 40; but the Accountant-General may prescribe such other forms of voucher as he may consider necessary for special cases.

Inter-district adjustments not allowed. 184. All revenue and expenditure must be recorded at once in the accounts of the district within which it is collected or incurred, without reference to its origin or object,

and no inter-district adjustments are allowed. For purposes of departmental or administrative accounts, such revenue or expenditure shall be shown against the district or districts to which it belongs in Form No. 83 and against the proper subhead in Form No. 80.

As an exception to this rule, revenue paid into the Madras Treatment of Bank by purchasers or lessees or remitted by Forest Officers publication publication publication publication publication processes are remitted by Forest Officers. in the form of private cheques on banks in Madras received Madras Bank in payment of Forest Revenue, shall be credited to the Circle of origin. For this purpose the Bank of Madras will forward a receipt for each remittance to the Conservator of the Circle to which it relates who will adjust the amount to the proper head of revenue in his accounts.

Nore,—To enable the Madras Bank to ascertain to what Circle the remittances appertain, the Forest Officer should direct the parties sending remittances to the Bank direct to give full details in the chalans as to—

(1) the nature of the transactions, and (2) the District and Circle to which they appertain.

Inter-district adjustments of expenditure are allowed in the case of advances taken from District Forest Officers by Conservators on tour, by District Forest Officers when away from their divisions and in all other cases when the advance cannot be directly accounted for by the disbursing officer.

185. District Forest Officers will send to the Conservator, Letters of so as to reach him at latest on the 7th day of the last month order. in each quarter, applications (Form No. 42) for the letters of credit required by them during the ensuing quarter. amount applied for exceeds one-fourth of the sanctioned Budget figure, full explanation for the excess must be given. Supplemental applications for credit should also be forwarded to the Conservator in the same form, but should only be made under very special circumstances.

The applications will not specify the amounts required on Taluk Treasuries, but only the total amount required at head-quarters. District Forest Officers will arrange the amounts of the credits required on the Taluk Treasuries with the District Treasury Officer.

The Conservator will then frame an application (Form No. 43) to the Accountant-General for the requirements of the Circle.

On receipt of these applications the Accountant-General will issue the required letters of credit, advice of which should reach District Forest Officers before the beginning of the new quarter.

Letters of credit are issued to officers as holding a certain office, and transfers of such officers should be reported to the Treasury Officers concerned—vide section 256.

All letters of credit lapse at the close of the financial

year, but not till then.

Cheques will hold good only for three months from date of issue; those drawn before the end of March and paid before the end of April will be taken against the letter of credit of the year in which the cheque was drawn. If paid after April, they will be taken against the letter of credit of the following year (article 445, rule 2 of the Civil Account Code).

Only money drawn against letters of eredit to be expended.

186. The general rule is that no money other than that drawn against letters of credit shall be used for expenditure. If funds be wanted for immediate expenditure locally, sums locally received may be so expended; but in all cases the gross amount of revenue received must be promptly remitted to the treasury, which may be done in cash or partly in cash and partly by cheque, or wholly by a cheque drawn against the letter of credit, the amount paid in cash and the amount remitted by cheque being shown separately in the chalan or remittance receipt.*

amount of unremitted revenue on hand at any time. The cash book should ordinarily be kept in English, but under the orders of the District Forost Officer the entries may be made in the vernacular of the district. A copy will be kept in the same form on separate sheets, on which duplicate entries of all transactions will be made at the same time as they are made in the bound cash book.

Sub-divisional and Range Officers will also maintain the following books:—

- (a) a bound ledger book (Form No. 45).
- (b) a register of sanctions (Form No. 33).

Returns to be submitted monthly.

207. On such date as the District Forest Officer may prescribe, Sub-divisional and Range Officers will close their cash books and will send to the District Forest Officer the separate sheets, retaining the bound copy only. This date will usually be fixed with reference to the date on which the Taluk Treasury accounts are closed, in order to preserve agreement between the forest and taluk figures. The cash sheets will be accompanied by all the necessary vouchers as prescribed for District Forest Offices and will show the cash balance in hand at the end of the month, which should be personally counted by the officer closing the cash book and compared by him with the entries in the cash book and the cash sheet. The fact should be certified at the foot of the latter return in the following form:—

"I hereby cortify that I have personally counted my cash balance on this day and found it to agree with the balance as shown in the cash book and in this return. The entries in the cash book and in this return have also been compared by me throughout and found to agree."

The cash sheet should also be accompanied by all the necessary timber and stock returns of the month, in which and in the cash sheet should be incorporated the accounts and returns of depot-keepers and other subordinates.

The livestock returns will be submitted by the officer in charge of the range in which the animals are working, in such manner as may be prescribed by the Conservator.

Objection statements.

Any items objected to by the District Forest Officer will be entered in a statement (Form No. 51) which will be forwarded to the Range Officer concerned for necessary action and the procedure will be that prescribed in section 217.

Soon after the close of each week the District Forest Officer will submit to the Conservator through the Collector a brief report in diary form of the work done by him during the week and of his observations on tour; this report will also contain a brief note compiled from the Range reports of the previous week on the progress of work in the different Ranges.

The Collector will record his observations and will forward the report to the Conservator who will return it, with his orders and remarks to the District Forest Officer through the Collector.

The weekly report may also be made use of to obtain the Conservator's suggestions on minor matters of professional work.

233. Cancelled.

Civil suits.

ř

234. In all matters relating to civil suits the District Forest Officer should promptly consult the Collector and act on his advice. The Collector will deal with a suit by or against the Forest department as though it related to the Revenue department and will take action in accordance with the directions contained in chapter X of the Board's Standing Orders. The District Forest Officer will keep the Conservator informed of the progress and results of suits.

Criminal cases

District Forest Officers should report to the Collector before commencing proceedings in any grave or unusual criminal case (vide also section 50), and obtain his sanction before retaining a Pleader in the prosecution of any case. Pleaders' fees should invariably be settled and approved in

Chap. V. Part I.

Duties of Officers and Office Business.

DISTRICT FOREST AND RANGE OFFICERS-continued.

When addressing the Board for sanction to institute or defend suits or other proceedings, Collectors should state the fee which it is proposed to pay the pleader engaged on behalf of Government. The Board of Revenue and Collectors can sanction pleaders' fees at a rate not exceeding Rs. 25 per diem subject to the following limits:-

(i) Board of Revenue up to Rs. 300 } in each case. (ii) Collectors up to Rs. 75

The sanction of Government must be obtained if it is proposed to pay a larger fee than Rs. 300.

235. Office work should be conducted in such a manner office work that, while a sufficient record of every transaction is preserved, conducted. the bulk of the records may be kept as small as possible and it is important that all papers should be so arranged as to facilitate reference.

All correspondence should be condensed as much as possible and repetitions and unnecessary detail avoided, as well as the unnecessary use of vernacular terms. When vernacular terms have to be given, the equivalent in English should also be added when possible. The names of plants, if given in the vernacular, must be accompanied by the scientific name whon known,

Long letters and reports should be divided into numbered Numbering of paragraphs; and if they are of great length, a brief marginal and marginal references. abstract of each paragraph should be added. The general rules for the conduct of official correspondence are embodied in the Board's Standing Orders (Chapter XVI).

The following special instructions have been issued Instruction for minimising correspondence in Forest Offices:—

Instruction for minimising correspondence in Forest Offices:—

Forest offices. regarding correspondence in Forest Offices:—

- 1. The number of registers and forms to be maintained in District Forest and Range offices should be confined to those prescribed in this Code or under the orders of the Government, or the Board, and without the sanction of these. authorities no new form should be brought into use.
- 2. Rominders in regard to all references which are more than a month old should be issued by a monthly list to be despatched on a fixed date to the officers concerned with instructions to return the same within a fortnight with their replies in their own handwriting, reminders in urgent cases being issued in the interval only upon the special orders of the head of the Office.

- DISTRICT FOREST AND RANGE OFFICERS-continued.
- 3. The system of correspondence followed in Post Offices, under which the original letter is returned to the sender with the reply written in the marginal space provided for the purpose or on the back, should be adopted as far as possible.
- 4. The objections on the accounts of subordirate officers should be consolidated in an objection statement to be issued from the District Forest Office on a fixed date each month with instructions to the subordinates concerned to return the same with their replies within a specified period.

Records of Forest offices. 236. The records of all Forest offices will be arranged and maintained under the disposal number system prescribed for the Offices of the Board of Revenue and Collectors. The rules relating to this system are contained in Board's Standing Order No. 165.

General Orders and Carculars of the Board of Revenue, the Conservator and the Accountant-General.

237. The general orders and circulars of the Board of Revenue, the Conservators and the Accountant-General will be filed separately, according to number and date, in a 'Circular file' to which an alphabetical index shall be attached. If received in duplicate, one copy will be placed with the record to which it relates. If only one copy be available, and it has special reference to any case, a memorandum of its contents will be filed therewith.

Berrice Order Book to be municained in each District Forest Office.

A service Order Book as prescribed in section 254 and an office order book as prescribed in Board's Standing Order No. 159, paragraph 2, shall be maintained in each District Forest Office for orders issued by the District Forest Officer.

Registers of correspondence. 238. Registers of receipts and issues of correspondence will be kept in books (Forms Nos. 54 and 55). A new series of numbers will be commenced in the register books at the opening of each calendar year.

Registers of Books and Maps. 239. There will be a Forest Library in each District Forest Office, and all books and maps must be carefully kept to ensure their remaining in good order and being easily found when required for reference. The books should be kept as much as possible in one place and under the custody of one particular clerk, who will be responsible for their conditionand safety. No books should be removed from the Library without the permission of the head of the office. When a

book is removed, a receipt must invariably be furnished by the officer removing it and the receipt should be returned to him or cancelled when the book is returned to the library. Every officer on receiving charge of the office should satisfy himself that the library is in good condition and, unless he reports at once that the books are out of order or that any volumes are missing, it will be assumed that he received the library in good order and he will thenceforward be personally responsible for any defects which he could have noticed by inspecting the library on his arrival. A register of books (Form No. 56) must be kept up. The current number of the register and the date of receipt will be entered on each copy on receipt. The rules for the registry and custody of maps will be found in appendix XXXV.

240. Periodicals, such as Part I of the Fort St. George Buding of Periodicals. Gazette and the Forest sheets of the District Gazette, as well as books which are published in parts, must be bound up in volumes, which will usually be yearly. Annual reports and similar publications may also, for convenience of preservation, be bound up in volumes from time to time. A similar procedure will also be adopted in reference to the proceedings of the Board of Revenue.

241. Notifications concerning the Forest Establishment Notifications and the management of District Forests should be regularly from in the published in the Forest sheets of the District Gazette, as well the District as abstracts of important orders and communications likely to be of general interest and monthly statements of receipts and expenditure in Form No. 53. Orders of dismissal may not be published without the sanction of Government.

242. The addenda and corrigenda to this Code, to the Addenda and Civil Account Code and Civil Service Regulations, and to the the tode. Board's Standing Orders, must be entered in their places immediately on receipt, the posting of each list of corrections being noted on the fly leaf. The District Forest Officer will be expected to examine, from time to time, all the copies of these publications maintained in his office, so as to assure himself that they are being properly posted.

243. District Forest Officers should take special care as stationery to the expenditure of the stationery and printed forms and books. It should be made the duty of one clerk in the office

to keep an account of receipts and issues, and this clerk will be held responsible for the custody of the articles generally.

All office records are Government property. 244. All accounts, books, maps, records and papers of a Forest Office are Government property, and the officer in whose charge they are will make them over to his successor on being relieved of charge, or to his departmental superior whenever they may be demanded.

Destruction of useless documents.

245. Soon after the close of the Forest year, the District Forest Officer will examine the records of his office with a view to the destruction of those documents which may be considered of no further use. A large bulk of the correspondence may be got rid of by destroying forwarding dockets, inquiries, and reminders. The destruction of correspondence dealt with under the disposal number system will be governed by the rules in appendix XIV to Board's Standing Order No. 169. Many of the letters relating to questions which have been settled for three full years can also be destroyed, provided the register books contain all that may be necessary to keep on record.

What records to be carefully preserved, Such documents as registers of reserved forests, annual or special reports, correspondence relating to boundary questions, to rights and privileges of other persons in the forests, to working-plans and annual plans of operations, and to all subjects affecting the general management and history of the forests of the district, and all orders of Government and circulars on important subjects, should be carefully preserved.

Forms Nos. 4, 46 and 48 should be preserved until a working-plan or other report embodying a complete account for the forests in question, of the history and statistics during any period considered, has been prepared or revised.

As a general rule, when monthly or annual returns have been reproduced or adequately summarized in printed working-plans or administration reports, the original manuscript forms, if they have been retained for at least three full years in all, may be destroyed.

A list of those papers which it is proposed to destroy will be submitted to the Conservator, and his authority will be obtained for their destruction. The destruction of Forest records needs most careful supervision and the selection of papers for destruction should never be entrusted to any but

247. A register of forest offences in Form No. 57 will Registers of Porest Offences and of Porest Offences and of Porest Offences. No. 71 will be posted from entries in this register. Correct of the produce and other property served. sponding registers in Form No. 58 will be kept in Subdivisional and Rango offices. A register in Form No. 59 showing particulars of the forest produce and other property seized and disposed of under the Forest Act or the rules issued thereunder, should also be maintained in every Range office. An extract from this register giving the particulars for each month should be submitted by Range Officers to the District Forest Officer soon after the close of the month, and an abstract, compiled in the same form, will be forwarded monthly by the District Forest Officer to the Conservator. When any officer subordinate to a Range Officer seizes property, he will report the fact forthwith in Form H (Appendix XXXIII) to the Magistrate having jurisdiction as required by section 41 of the Forest Act. In cases where property seized is subsequently released, a receipt in Form No. 60 should be taken from the person to whom the property has to be returned. These receipts should be submitted by Range Officers to the District Forest Officers with the extract from Form No. 59 above referred to. The first entry in each year's register in Form Nos. 57, 58 and 59 will consist of the serial numbers of pending cases of the preceding year against

- (10) Timber and Fuel Depots, their situation and adequacy, condition in which kept; state of the records kept up in connection with them, etc.

The Conservator should further see that all money transactions are conducted in accordance with the rules in force; and he should examine the cost of current works, as well as of those which have been spread over several years. He should also ascertain that the District Forest Officer and other members of the Controlling Staff are conversant with their duties, that discipline is maintained, and that work is being properly supervised. The result of these inspections should be communicated to the District Forest Officer through the Collector. The District Forest Officer shall report without undue delay to the Conservator the action taken on the Conservator's Inspection Notes. Conservators shall forward to the Board manuscript copies of these inspection reports which will be printed at the Government Press, Madras, and issued as Board's Proceedings, copies being sent to other Conservators, the Principal, Forest College, Coimbatore, and to the Sylviculturist, Imperial Forest Research Institute, Debra Dun. Whenever a Conservator desires to draw the Board's special attention to, or obtain its orders on any matters contained in his report, he should do so in a covering letter forwarded through the Collector.

Duties of Officers and Office Business.

Chap. V. Part II.

CONSERVATOR'S DUTIES AND OFFICE BUSINESS-continued.

249. It is the duty of the Conservator to place his professional and technical knowledge freely at the disposal of the Collector of any district within his Circle whenever applied to. He should maintain close and cordial relations with all Collectors within his Circle, should invariably advise them in advance of any visit to their head-quarters and should take every opportunity of personal conference with them on forest matters.

Conservator to place his professional know ledge at the disposal of the Collector.

250. The Conservator's office business will be conducted, numbers in Conservators, as far as practicable, in the manner prescribed for the offices offices to be of his subordinates. Registers of receipts and issues of the manner prescribed for the offices of the manner prescribed for the offices of the manner prescribed for the offices of the offices of the manner prescribed for the offices of the off documents, and of books, roports, maps, etc., must be kept as not office laid down in sections 238 and 239. The disposal number system should be adopted as prescribed in section 236. The provisions of section 245 in regard to the annual destruction of useless documents apply mutatis mutandis to the Conservators' offices.

251. When a Conservator is absent on tour, all letters rourlists of except those marked 'confidential' may be opened by the conservator of the Conservators. Manager if he has the written authority of the Conservator, when absent to whom they will then be forwarded. A tour list in Form No. 61 of all documents received in and issued from the Conservator's office will be sent to him daily, or as frequently as may be possible. The tour list will be accompanied by the letters themselves, and each letter requiring orders must be accompanied by the papers of the case it refers to. These lists will be returned with the requisite orders.

252. When letters are not opened by the Manager in correspondence accordance with the preceding section, the Conservator will Conservators when on four. send to his office the original letters received, together with copies of the replies of any official correspondence which has not passed through his office and which he has carried on on tour. He will keep one camp register for the latter, the entries being numbered consecutively as in the case of other registers.

253. Communications addressed to the Board of Revenue correspondent with the Board should, as a rule, be complete in themselves and independent of Revenue. of enclosures. Enclosures of importance can be forwarded, but merely for possible reference on points of detail. Where. the case is simple, however, and contained in a few words, and , where a brief endorsement sufficiently explains it, such

endorsement will answer all purposes. Enclosures may often be forwarded in original to be returned when no longer required. When copies are sent, they should not be in extenso when extracts will suffice.

When the Conservator has to submit a report to the Board based on communications from several Collectors or District Forest Officers, a brief précis of the latter will usually be submitted instead of copies of the various communications. Such précis may often be conveniently given in tabular form.

In quoting previous letters to the Board, the number and date of the Proceedings in which they were published should be always given, and in cases where a previous order of Government has to be quoted, its number and date should be given as well.

Further instructions regarding correspondence will be found in the Board's Standing Orders.

Service Order and Office Order Books, 254. A Service Order Book will be kept up in each Circle in which will be entered all orders issued by the Conservator relative to the appointment, promotion, leave, etc., of establishments, and these orders will be consecutively numbered for each calendar year. An office order book as prescribed in Board's Standing Order No. 159, paragraph 2, will be maintained.

Part III.—Transfer of Charge.

General.

255. On the occasion of a transfer of charge arrangements must be made by the two officers concerned that the relieving officer is placed in such a position as will enable him to carry on the duties of which he has taken charge in an efficient manner, and with as complete a knowledge of the property entrusted to his charge, the works in progress and all arrangements made in connection with them, as the circumstances of the case admit.

Transfei Report 256. A report of the transfer of charge of a district (Form No. 62), signed by the relieved and relieving officers, will on the day of transfer be submitted to the Conservator through the Collector.

Duties of relieved and relieving

257. The relieving officer must see that all office books are posted up to date, and, in the case of cash accounts, that the needful vouchers of receipts and issues belonging to the accounts of the current month are made over to him. He

Transfer of Charge—continued.

will also make himself acquainted with all outstandings and liabilities on account of the department, and state that he has done so. He will further take charge of other property belonging to the department as described below. On the day on which he makes over charge of the office, the relieved officer will report the transfer of charge to the officers in charge of the treasuries on which he holds letters of credit, and will, at the foot of the report, send a specimen of the relieving officer's usual signature, in order that the Treasury officers may satisfy themselves as to the validity of the cheques presented by the relieving officer.

The relieved officer will give the relieving officer a list of the important works in hand and those remaining to be taken up with a memorandum of such matters as most require his attention and of any outstandings to or against the department regarding which any difficulty or complication in adjustment is anticipated.

He should specially mention all cases in which the return of security deposits to contractors or others has been withheld.

Besides cash, timber and forest produce, the following are the main classes of property which ordinarily form the subject of transfers between District Forest Officers:—

- 1 Demarcated reserves.
- 2. Plantations.
- 3. Timber depots and revenue stations.
- 4. Buildings, roads and bridges.
- 5. Live-stock.
- 6. Machinery, store, instruments, tools and tents.
- 7. Books and maps.
- 8. Office records.
- 9. Office furniture.
- 10., Working-plans.
- 11. Permits.

In the transfer report, the relieving officer should state by what means he has satisfied himself of the nature and condition of these different classes of property of which he has taken charge.

Live and dead stock and other articles which may be at head-quarters, as well as books and maps, office records and office furniture, should, as a rule, be personally inspected by the relieving officer at the time of transfer, and the fact of this having been done should be stated. Chap. V.

Duties of Officers and Office Business

TRANSFER OF CHARGE-continued.

In the case of property at a distance from head-quarters the registers and other documents in which they are described should be examined. If the relieving officer fails to bring to notice within a reasonable period any deficiency or defect in work, stores or other property taken over from his predecessor, he will be held responsible for the same so far as it may have been practicable for him to ascertain such deficiency or defect.

The Cash book will be closed, and the cash balance will be counted, in the presence of both officers, who will then

sign the book.

Certificate of transfer of charge. 258. A transfer certificate in the form prescribed in the Civil Account Code will be signed by both officers and submitted to the Accountant-General direct as required by article 47, Civil Account Code. A certificate of transfer of charge of a circle will in like manner be forwarded to the Accountant-General, and of a Working-Plans Office to the Conservator.

Transfer of charge of Bub-division or Range.

259. In the case of the transfer of charge of a Sub-division, or Range, a transfer report, similar to that prescribed in section 256, will be made to the District Forest ()fficer, who will send the original or a copy to the Conservator, and intimate the fact to the Board of Revenue, Land Revenue, Forests, in the prescribed form.

Transfers between Deputy Rangers, Foresters, Guards and Depotkeepers. 260. In the case of transfers between Deputy Rangers not in charge of Ranges, the Range officer is held responsible for seeing that all Government property, records, etc., are properly handed over. In transfers of Foresters, Guards, or Depôt-keepors, a transfer report in Form No. 63 or No. 64 shall be submitted to the District Forest Officer through the Range officer, and in the case of depôts the report shall be submitted to the Conservator.

When an officer is transferred from one district to another or from a district establishment to a Conservator's establishment, or from one Conservator's establishment to another, the officer or officers who have been maintaining his default book or books or conduct registers will send it or them to the officer or officers who will have to do so thereafter. A last pay certificate will also be sent to the District Forest-officer of the officer's new district or if he is transferred to a Conservator's establishment to that Conservator.

Submission of Reports, etc.

- 3. No mere paraphrasing and reproduction of the statistics should be allowed in the report.
- 4. All attempts to offer explanations of variations in the figures, which are not important or unusual, should be excluded unless the fact alleged in explanation is in itself important enough to demand mention.
- 5. The idea that it is necessary to say something should be discarded, and it should be recognised that the briefer a report is the better, provided that it says all that is needed for an intelligent comprehension of the meaning of the facts and figures and of the salient features of the year's works.
- 6. The introduction into the text of large numbers of tables of statistics (usually a reproduction in an abridged form of the statistics in the appendices) detracts from the value and interest of a report while it greatly increases the cost of printing. The body of the report should be almost entirely in narrative form. It will occasionally be necessary to introduce tables of comparative statistics into the narrative, but such tables should be brief and simple and their number rigidly restricted.
- 7. The number of maps or diagrams should be restricted; they should be placed at the beginning or end of the volume.
- 8. Tables of statistics should not be printed sideways on a page unless distinct economy of space thereby results. The foolscap size lends itself easily to the printing of tables with their heading across instead of along the length of the page.
- 9. Pages of tabular matter should not be printed with the columns left entirely or almost entirely blank.
- 10. It is seldom necessary to give in full detail and in separate columns in tables of statistics the corresponding figures for the preceding year. In most cases it will be found sufficient to give corresponding figures for the totals only, by means of one additional line at the foot of the table.

CHAPTER V.—GENERAL.

General Remarks.

٦,

The introduction should only deal in a summary way with Instructions for The introduction should only deal in a summary way with preprint the points contained in the report; any special matters not directly connected with the administration of the forest property of the State, but bearing on it (such as the export and import of forest produce), should be included in 'General Remarks.'

> In Chapter II under sub-head (4) (a) 'Natural Reproduction,' the measures adopted to ensure or improve it should be noted. Under sub-head 5, the extent as well as the manner of the exploitation of the forests should be noted.

> Chapter IV on 'Administration' should contain all remarks regarding the relation of Forest Administration to the General Administration of the country; establishments and their recruitment; forest instruction, etc.

> The Report should give a clear and precise history of the work of the year, and, whenever necessary, the result should be compared with those of former years.

> For the purpose of instituting a comparison between the expenditure incurred on forest surveys executed by the Forest Survey Branch and those executed by the Survey of India Department, the Survey year ending 31st August should be adopted.

> Each sub-head will ordinarily commence with some general remarks on the subject referring to the whole Circle, accompanied by an abstract exhibiting the progress of the work, and then will follow the more important details of the work in each district under such sub-head.

> The outturn and the financial results should, whenever practicable, be shown separately for Reserved Forests and Reserved Lands.

Submission of Reports, etc.

ANNUAL REPORTS AND RETURNS-continued.

Wherever a Working-Plan exists, it should be explained how far the forests have been managed in accordance with its provisions.

Care must be taken to exclude all unnecessary details, and it should be understood that the Annual Report is not the place for discussing subjects which require the separate orders of Government.

Attached will be an appendix which will contain such additional interesting and important details in any district as may be desirable to put on record. Wherever it may appear useful, the report may be illustrated by maps.

Submission of Reports, etc

ANNUAL REPORTS AND REFURNS—continued,

The District Forest Officers of districts in which there are tramways will also submit tramway statements as per Form No. 86. These statements need not be printed in the circle reports as the general result of the year's working will be noticed in the reports themselves.

No additional returns giving, in a different form, the information contained in the above statements should be submitted.

The Accountant-General will prepare Form No. 81 and forward it under his signature to the Conservators of Forests. The Conservators of Forests will prepare Forms Nos. 80 and 82, the former from the figures furnished by the Accountant-General under section 218.

Trestment of fractions.

264. Except in Forms Nos. 80 to 82, fractions of rupers. square miles, acres, or cubic feet, if exceeding one-half, will be taken as a full rupee, square mile, acre, or cubic foot, as the case may be; if one-half or less, they will be omitted.

Form No. 72,

265. In Form No. 72 are to be entered such forest tracts as are under fire-protection, whether 'special,' i.e., with fire lines and under the charge of fire patrols, or 'general,' i.e., with the ordinary staff assisted possibly by few patrols. The 'special' tracts should be first entered and totalled separately, and the 'general' tracts afterwards. Areas such as evergreen ghat forests, small plantations surrounded by cultivated country, delta forests and the like, in which fires do not ordinarily occur, should not be entered at all. The form will refer both to reserved forests and reserved lands under 'special' fire-protection. The annual returns of the District Forest Officer should give details per range for areas both under special and general protection, but in the return appended to circle reports, district totals alone should be given for both special and general areas.

Form No. 73 should give the total area closed and open to grazing for each district separately for reserved forests and reserved lands, and care should be taken to make the entries in the various columns as particularised below:-

(1) Columns 2 and 3.—Areas closed to all animals

(including of course sheep and goats).

(2) Columns 4 and 5.—Areas closed only to sheep and goats but open to other animals (assuming that any area closed to sheep is also closed to goats).

- (4) Column 7 .- Areas open to goats and other animals.
- (5) Total grazing area of the district (i.e., the totals of columns 2 to 7).

Figures in column 2 " area closed to all animals" should not be included in column 6 "area closed only to goats but open to all other animals." The total area closed to goats would be the totals of columns 2 to 6.

266. In Form No. 75 the regular plantations will be Form No. 75. given first, and the columns totalled. After this all other plantations cultural operations will be recorded in such manner as may be considered necessary. The sum total of the column 'charges' will comprise the expenditure under Λ -VIII(e) and such portions of the expenditure under other sub-heads of A-VIII in Form No. 80 as should be debited against 'sowing and planting.'

267. Forms Nos 76 and 77 will be prepared from the Form No. 76. monthly Forms Nos. 10, 13 and 18. In Form No. 76 District imbertand fuel, form No. 77. permanent establishment. The provisions relating to the upkeep of service books are contained in articles 816-822 of the Civil Service Regulations. These service books should be examined and verified annually by the head of the office. and should be so maintained that at the close of an officer's service, his application for pension may be prepared without delay and submitted for the orders of Government through the Accountant-General. The pension applications of officers of and above the rank of Deputy Ranger should be submitted through the Conservator; but all references, calling for further information in connection therewith, may be made direct to the District Forest Officers concerned, so as to avoid unnecessary delay. In regard to all subordinates of and below the rank of Ranger, the District Forest Officer will be considered to be 'the head of the office' for the purposes of this section. For officers of the Provincial Service, the Board of Revenue will discharge the duties of "the head of the office."

Maintenance of Conduct Registers for Deputy Rangers and Rangers

278. A conduct register for every permanent subordinate in the classes of Deputy Rangers and Rangers will be maintained in the office of the Conservator (duplicates being maintained in District Forest offices) in which under the orders of the Conservator entries will be made from time to time on the work, conduct, punishments awarded, etc.; an abstract of the District Forest Officer's half-yearly reports shall also be entered. It will be convenient to note promotions, leave, etc., in the conduct registers, but these registers will not in any way replace the service registers prescribed in Chapter XLIII of the Civil Service Regulations. Blackmarks will be recorded in the conduct registers of Rangers and Deputy Rangers, and defaulter books will be kept by Conservators for every member of their own permanent establishments, clerical and menial, and by District Forest Officers for all subordinates subject to the black-mark rules in their districts except Rangers and Deputy Rangers for . whom duplicate conduct registers are maintained. Every black-mark and every punishment under the black-mark rules, inflicted by a Conservator will be communicated at once to the District Forest Officer of the district where the subordinate to whom the black-mark is awarded is working; every black-mark inflicted by a District Forest Officer on a Ranger or a Deputy Ranger or by a Sub-
